Barab,Kenneth E. Hay,Nancy Butler Songer,Daniel T. Hickey,2017-09-05 William Wordsworth 1770 1850 needs little
introduction as the central figure in Romantic poetry and a crucial influence in the development of poetry generally This
broad ranging survey redefines the variety of his writing by showing how it incorporates contemporary concepts of language
difference and the ways in which popular and serious literature were compared and distinguished during this period It
discusses many of Wordsworth s later poems comparing his work with that of his regional contemporaries as well as major
writers such as Scott The key theme of relationship both between characters within poems and between poet and reader is
explored through Wordsworth s construction of community and his use of power relationships A serious discussion of the
place of sexual feeling in his writing is also included ERIC Educational Documents Index, 1966-69: Minor descriptors and
