It reveals the role that liturgy played in the transmission of the apocryphal Acts and visualises the way these narrative traditions developed and changed through their incorporation into a ritual context. The result is a dynamic picture of the ritual reception of the extra canonical Acts in the Latin Middle Ages where the apocryphal legends about the apostolic past were approached as memorable traditions on the origins of Christianity.

Integrative Approaches to Psychology and Christianity, Fourth Edition David N. Entwistle, 2021-11-03

Since the first edition of *Integrative Approaches to Psychology and Christianity* was published in 2004 this has become the standard textbook on the topic. Now in its fully revised fourth edition Dr Entwistle's book elucidates historical philosophical and practical issues in the integration of psychology and Christianity. As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology. It includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity. The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate. New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate. The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues. Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration. This book is ideal as a textbook for students of psychology and other behavioral and social sciences, social work, sociology, theology, counseling, pastoral counseling at both the graduate and undergraduate level. It is also written for the broader readership of psychologists, counselors, pastors and others who are interested in integration.

Jürgen Moltmann and the Work of Hope M. Douglas Meeks,2018-10-31 These essays reflect on the future of Christian theology in light of the contributions J rgen Moltmann has made in his prolific career as one of the world s foremost theologians They are not a prediction of what is coming in the future of theology since God s own actions and human history for that matter are not predictable Expressed here is hope for what future theology should take seriously from Moltmann s work Moltmann broke the mold of 19th and 20th century theology by focusing consistently on God s promises of a new heaven and a new earth The result was a theological imagination that is utterly realistic delighting in the creative tension of theology that lives in an unfinished open field of negations and possibilities Hope for the promised future of God casts its light on present sufferings that contradict that future The prominent themes here focus on the contradictions of God s promises and God s justice The essays see clearly the human domination that leads to the oppression of nature the hatred of the poor the dominance of one gender over the other the migration of those who find no home in their homeland and the wounds of neocolonialism For Moltmann these sufferings do not belong simply to ethics but to the heart of theology The doctrines of creation redemption and new creation are fully engaged in the political economic ecological and social problems of this time Here lies the way ecumenism will be reborn in the future The essays argue that theology should not turn aside from Moltmann s main theme of the resurrection of the Crucified One and of the presence of God s future in the present Hope opens our eyes to the work of God s Spirit of Life and the affirmation of eternal life in the present The future of Christian theology should not miss the theme of joy in the face of sin death and evil and the celebration of God s cosmic all inclusive future in which God will be at home in God s creation Catholicism For Dummies
