VI in 1788 89 The original volumes were published in quarto sections a common publishing practice of the time The work covers the history of the Roman Empire Europe and the Catholic Church from 98 to 1590 and discusses the decline of the Roman Empire in the East and West Because of its relative objectivity and heavy use of primary sources at the time its methodology became a model for later historians This led to Gibbon being called the first modern historian of ancient Rome Gibbon offers an explanation for why the Roman Empire fell a task made difficult by a lack of comprehensive written sources though he was not the only historian to tackle the subject According to Gibbon the Roman Empire succumbed to barbarian invasions in large part due to the gradual loss of civic virtue among its citizens They had become weak outsourcing their duties to defend their Empire to barbarian mercenaries who then became so numerous and ingrained that they were able to take over the Empire Romans he believed had become effeminate unwilling to live a tougher manly military lifestyle In addition Gibbon argued that Christianity created a belief that a better life existed after death which fostered an indifference to the present among Roman citizens thus sapping their desire to sacrifice for the Empire He also believed its comparative pacifism tended to hamper the traditional Roman martial spirit Finally like other Enlightenment thinkers Gibbon held in contempt the Middle Ages as a priest ridden superstitious dark age It was not until his own age of reason and rational thought it was believed that human history could resume its progress Gibbon sees the Praetorian Guard as the primary catalyst of the empire's initial decay and eventual collapse a seed planted by Augustus at the establishment of the empire He cites repeated examples of the Praetorian Guard abusing their power with calamitous results including numerous instances of imperial assassination and incessant demands for increased pay Gibbon's style is frequently distinguished by an ironically detached and somewhat dispassionate yet critical tone He occasionally lapsed into moralization and aphorism As long as mankind shall continue to bestow more liberal applause on their destroyers than on their benefactors the thirst of military glory will ever be the vice of the most exalted characters The influence of the clergy in an age of superstition might be usefully employed to assert the rights of mankind but so intimate is the connection between the throne and the altar that the banner of the church has very seldom been seen on the side of the people Chapter Three History is indeed little more than the register of the crimes follies and misfortune of mankind *ibid* If we contrast the rapid progress of this mischievous discovery of gunpowder with the slow and laborious advances of reason science and the arts of peace a philosopher according to his temper will laugh or weep at the folly of mankind Chapter Gibbon provides the reader with a glimpse of his thought process with extensive notes along the body of the text a precursor to the modern use of footnotes Gibbon's footnotes are famous for their idiosyncratic and often humorous style and have been called Gibbon's table talk They provide an entertaining moral commentary on both ancient Rome and 18th century Great Britain This technique enabled Gibbon to compare ancient Rome to modern times Gibbon's work advocates a rationalist and progressive view of history *The History of the Decline and Fall of the Roman Empire*, 1840 **A History of the Roman Empire** John Bagnell Bury, 2008-06
