Romantic Obsession T0:

Creating Romantic Obsession Kathleen Béres Rogers, 2019-03-29 Most of us have at one time been obsessed with something but how did obsession become a mental illness This book examines literary medical and philosophical texts to argue that what we call obsession became a disease in the Romantic era and reflects the era's anxieties Using a number of literary texts some well known like Mary Shelley's 1818 *Frankenstein* and Edgar Allan Poe's 1843 *The Tell Tale Heart* and some not like Charlotte Dacre's 1811 *The Passions* and Charles Brockden Brown's 1787 *Edgar Huntly* the book looks at *vigilia* an overly intense curiosity intellectual monomania an obsession with study nymphomania and erotomania gendered forms of desire *revolutiana* an obsession with sublime violence and military service and ideality an obsession with an idea The coda argues that traces of these Romantic constructs can be seen in popular accounts of obsession today

Introduction to You (season 4) Gilad James, PhD, *You* is a psychological thriller television series that made its debut on Netflix in 2018 The show follows the story of Joe Goldberg a charming and obsessive bookstore manager who develops an extreme infatuation with a woman named Beck Throughout the first two seasons Joe's warped sense of emotions and morals lead him to commit a series of heinous crimes including murder Despite his actions the show's skilled storytelling also gives viewers a glimpse into Joe's traumatic past which could potentially explain his erratic behavior Season three ended with Joe moving to the suburbs with his lover pregnant neighbor and his young son Season 4 titled *You Loves a Maze* follows the twisted story of Joe and how he adapts to this new suburban life which includes a diverse cast of characters including his next door neighbors The trailer hints that the season will take a darker turn than the previous ones with Joe becoming increasingly unhinged as he attempts to reconcile his violent tendencies with his desire for a peaceful domestic life Fans of the series have eagerly awaited the arrival of season four since the third season's ending cliffhanger and it's sure to maintain the show's reputation for suspenseful and intense storytelling

Modern Fantasies on Love versus Classical Romances Ljuba Tarvi, 2023-07-14 Viewed through the lens of physics love conquers nothing is the conclusion reached when love patterns in romances are viewed through laws of quantum physics In this book based on the metaphor Love Text is Energy love in fiction is interpreted in the same way as subatomic particles are studied in quantum mechanics by investigating traces of their clashes in giant colliders i.e. as Marx's converted forms of the protagonists conscious and unconscious decisions and actions The book introduces the Token Valence Method which assumes that a word like an elementary particle is neither a particle nor a wave but rather a quantum state The TVM has revealed three models of love patterns in fiction adaptation 21st century alienation 20th century and imagination 1991 2021

Theoretical Frameworks for Personal Relationships Ralph Erber, Robin Gilmour, 2013-06-17 The past two decades have seen a tremendous increase in research and scholarship devoted to personal relationships From rather scattered beginnings a recognizable and recognized field has emerged whose strength and health is reflected in a wide array of indicators The editors contend that while the vigor of the field is often shown in the diversity and innovation of its research it is in the theoretical domain that they find evidence of a real coming of age This volume provides grounds for arguing that the diversity of theorizing is particularly healthy at this point The reader will notice that there is some diversity in terms of how much theory and research is contained in each chapter some are purely theoretical others are complemented by original pieces of empirical research The editors and contributors are from different countries another way in which the diversity of this book manifests itself The variety of the frameworks presented are seen as a strength as building on established strengths elsewhere to feed into relationship research and enhance its vitality Each chapter makes its own contribution to thinking and research about personal relationships As a group they add to an exciting collection that not only reflects a richness of conceptual backing but also a wide range of usable theoretical structures
