Fostering Habits of Mind in Today's Students Jennifer Fletcher, Adela Najarro, Hetty Yelland, 2023-07-03 Co published with and Students need more than just academic skills for success in college and career and the lack of an explicit instructional focus on the soft skills critical to postsecondary success poses a challenge for many students who enter college especially the underprepared Based upon a multi campus cross disciplinary collaboration this book presents the resulting set of habits of mind based strategies that demonstrably help not only low income ESL and first generation college students overcome obstacles on the path to degree completion these strategies equally benefit all students They promote life long integrative learning and foster intellectual qualities such as curiosity openness flexibility engagement and persistence that are the key to developing internalized and transferrable competencies that are seldom given direct attention in college classrooms This contributed volume written with full time and adjunct faculty in mind provides the rationale for this pedagogical approach and presents the sequential instructional cycle that begins by identifying students assets and progressively focusing on specific habits to develop their capacity to transfer their learning to new tasks and situations

Faculty from both two year and four year colleges provide examples of how they implement these practices in English math and General Education courses and demonstrate the applicability of these practices across course types and disciplines Chapters address key factors of college success including The link between habits of mind and student retention and achievement Using an assets based approach to teaching and learning Supporting and engaging students Creating inclusive learning communities Building confidence and self efficacy Promoting transfer of learning Teacher networks and cross disciplinary collaboration By foregrounding habits of mind as an instructional lens this book makes a unique contribution to teaching in developmental and general education settings Upsetting Composition Commonplaces Ian Barnard, 2014-07-15

In Upsetting Composition Commonplaces Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition s refusal of poststructuralism rather than on providing solutions in the form of teaching templates Upsetting Composition Commonplaces addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing Conceding Composition Ryan Skinnell, 2016-09-01

First year composition became the most common course in American higher education not because it could fix underprepared student writers but because it has historically served significant institutional interests That is it can be conceded in multiple ways to help institutions solve political promotional and financial problems Conceding Composition is a wide ranging historical examination of composition s evolving institutional value in American higher education over the course of nearly a century Based on extensive archival research conducted at six American universities and using the specific cases of institutional mission regional accreditation and federal funding this study demonstrates that administrators and faculty have introduced reformed maintained threatened or eliminated composition as part of negotiations related to nondisciplinary institutional exigencies Viewing composition from this perspective author Ryan Skinnell raises new questions about why composition exists in the university how it exists and how teachers and scholars might productively reconceive first year composition in light of its institutional functions The book considers the rhetorical political organizational institutional and promotional options conceding composition opened up for institutions of higher education and considers what the first year course and the discipline might look like with composition s transience reimagined not as a barrier but as a consummate institutional value The Norton Field Guide to Writing with

Readings and Handbook, 2013 **The Norton Field Guide to Writing** Richard Harvey Bullock, Deborah Bertsch, Maureen Daly Goggin, Francine Weinberg, 2022 The Norton Field Guide lets instructors teach the way they want to teach and helps students write in the way that works best for them In the Sixth Edition new coauthor Deborah Bertsch shows students how to adapt their writing to new rhetorical situations with three new chapters Remixes Explorations and Reflecting on Your Writing More inclusive than ever the new edition features thirty new readings including seventeen written by students that offer fresh and inspiring sources for writing New videos and interactive activities in InQuizitive for Writers reveal multiple ways to understand and apply the book's advice and are complemented by new instructor resources that respond to today's teaching challenges
