Arabic Instruction in Israel Allon Uhlmann, 2017-07-10 In Arabic Instruction in Israel Allon J Uhlmann confronts two conundrums namely the persistently poor level of Arabic proficiency among Jewish Arabic students and teachers and the traumatic alienation of Arab students by university Arabic grammar instruction These are not aberrations but rather direct albeit unintended systemic consequences of the field of Arabic instruction where Jewish students encounter Arabic as a dead hostile language Jewish hegemony devalues native Arabic proficiency and Arab students are locked into a fractured educational trajectory encountering two alienating and mutually unintelligible grammars of Arabic at school and at university By tracing systemic variabilities in cognition and learning Uhlmann exposes hitherto misrecognised dynamics that hinder Arabic instruction in Israel thereby offering new avenues for possible change *Why the West Fears Islam* J.

The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international

Gender and Equality in Muslim Family Law Lena Larsen, Ziba Mir-Hosseini, Christian Moe, Kari Vogt, 2013-04-30 Dante is one of the towering figures of medieval European literature Yet many riddles and questions about him persist By re-reading Dante with an open mind Barbara Reynolds made remarkable discoveries and unlocked previously hidden secrets about this greatest of Florentine poets A fundamental enigma has tantalised readers of the *Commedia* for seven centuries Who was the leader prophesied by Virgil and Beatrice to bring peace to the world Many attempts have been made to identify him but none

has seemed conclusive until now As well as proposing a solution to the famous prophecies this lively engaging and elegantly written biography contains a provocative new idea in virtually every chapter Dr Reynolds research indicates that Dante smoked cannabis to reach new heights of creativity That Beatrice Dante s great love was not who most scholars think she was That Dante was a talented public speaker who created a quite new form of poetic art holding audiences spellbound Above all Reynolds views Dante as one of the greatest spin doctors of Western civilization His aim was not to preach an interesting parable about punishments for sin and rewards for virtue It was to use poetry to change the politics of the age and unite Europe around the secular authority of an Emperor To promote this idea which dominated his writings from his exile onwards Dante combined it with a dramatic presentation of the Christian belief in Hell Purgatory and Heaven Vividly told in the first person with a colour and immediacy derived from the pop art of street narrators now made to seem respectable by its use of classical predecessors like Virgil this extraordinary journey through the three realms was always profoundly political in intent Dante here comes alive as never before irate opinionated settling scores a man of multifaceted gifts and extraordinary genius whose role as an interpreter of world history makes him more than ever relevant to the new millennium
