Jonsson, José Luis Losada, Mariona Portell, 2019-10-04 Assessment in natural contexts through observation is unquestionably complex. Systematic observation grounded in observational methodology offers a wide range of possibilities to the rigorous study of everyday behavior in their natural context. These possibilities have been enriched in recent decades with the explosion of information and communication technologies. In this eBook we assemble 23 articles from several researchers who have made important contributions to this evolving field. The articles included in this eBook have been organized with a first part on general methodological developments and a second part with methodological contributions that emphasize different application areas. Considering the enormous possibilities of the systematic observation in the study of daily life we hope this eBook will be useful to understand innovative applications in different fields. *Coaching Basketball Technical and Tactical Skills* American Sport Education Program, 2007 Covers other key areas of coaching including season and practice planning.
