Volume III of the Handbook for Teaching Introductory Psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom. It contains an organized collection of articles from Teaching of Psychology TOP, the official journal of the Society for the Teaching of Psychology Division 2 of the American Psychological Association. Volume III contains 89 articles from TOP that have not been included in other volumes. Another distinction between this volume and its predecessors is its emphasis on testing and assessment. The book is divided into two sections. Section One, Issues and Approaches in Teaching Introductory Psychology, contains 52 articles on critical issues such as how to approach the course, understanding students' interests, perceptions, and motives, students' existing knowledge of psychology, including their misconceptions, a comparison of introductory textbooks, and tips on how to evaluate them, test questions, and student factors affecting exam performance, an overview of different forms of feedback, giving extra credit, and how to deal with academic dishonesty. Section Two consists of 37 articles that present demonstrations, class and laboratory projects, and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline. This section is organized so as to parallel the order of topics found in most introductory psychology textbooks. Intended for academicians who teach the introductory psychology course and/or oversee grad assistants who teach the course, all royalties of the book go directly to the Society for the Teaching of Psychology to promote its activities to further improve the teaching of psychology.

The Souls of Black Folk Association for the Study of African-American Life and History, 2004. In this curriculum guide, the Association for the Study of African American Life and History continues its emphasis on Du Bois' prophetic statement first enunciated at the Pan African Conference of 1900 that the problem of the Twentieth Century is the problem of the color line, and moreover, the double consciousness or two-ness confronting African Americans: two souls, two thoughts, two unreconciled strivings, two warring details in one dark body whose dogged strength alone keeps it from being torn asunder. In addition to engaging the issues raised in Du Bois' prophetic statement, the editors have chosen to highlight the following themes in his seminal work: The Souls of Black Folk, Revisited, Black History and Historians, The Tuskegee Machine, and the Politics of Accommodation, Talented Tenth, Race Relations, Pan Africanism, The Sacred Arts. These themes are reflective of the evolving scholarship that W. E. B. Du Bois expressed in *The Souls of Black Folk* and throughout his prolific career. While it is patently impossible to design a curriculum guide around the fifty or more state history standards, the editors have employed the Mid-continent Region Education Laboratory's Content Knowledge A Compendium of Standards and Benchmarks for K-12 Education, as well as consulting the state standards in California, Maryland, Illinois, and Virginia, in creating this useful guide.
