

Remember that walls on the exterior side and floor panels through the ceiling have to be secured on the convenient side only.

Install the guy lines as provided on the tent.

It is recommended that the interior support guy lines be kept taut. However, the guy lines should not be so tight that they will pull the tent down or pull the floor up.

Using the ceiling board as a screen

The ceiling board attachment is designed to be used in 2 phases. In the first, the board is used as a screen to keep the interior of the tent dry. The board is then removed and the tent is used as a screen to keep the interior of the tent dry.

Make sure that you have positioned the ceiling board as a screen before you use the tent's interior.
