Wang, Liang,Geng, Xin,2009-08-31 This edited book provides researchers and practitioners a comprehensive understanding of the state of the art of behavioral biometrics techniques potential applications successful practice and available resources Provided by publisher     Advances in Image and Graphics Technologies Tieniu Tan,Qiuqi Ruan,Xilin Chen,Huimin Ma,Liang Wang,2013-04-12 This book constitutes the refereed proceedings of the Chinese Conference on Image and Graphics Technologies and Applications IGTA 2013 held in Beijing China in April 2013 The 40 papers and posters presented were

carefully reviewed and selected from 89 submissions The papers address issues such as the generation of new ideas new approaches new techniques new applications and new evaluation in the field of image processing and graphics

*Multimedia Analysis, Processing and Communications* Lin Weisi,Dacheng Tao,Janusz Kacprzyk,Zhu Li,Ebroul Izquierdo,Haohong Wang,2011-04-11 This book has brought 24 groups of experts and active researchers around the world together in image processing and analysis video processing and analysis and communications related processing to present their newest research results exchange latest experiences and insights and explore future directions in these important and rapidly evolving areas It aims at increasing the synergy between academic and industry professionals working in the related field It focuses on the state of the art research in various essential areas related to emerging technologies standards and applications on analysis processing computing and communication of multimedia information The target audience of this book is researchers and engineers as well as graduate students working in various disciplines linked to multimedia analysis processing and communications e g computer vision pattern recognition information technology image processing and artificial intelligence The book is also meant to a broader audience including practicing professionals working in image video applications such as image processing video surveillance multimedia indexing and retrieval and so on We hope that the researchers engineers students and other professionals who read this book would find it informative useful and inspirational toward their own work in one way or another

*Sound Analysis and Synthesis with R* Jérôme Sueur,2018-06-06 Sound is almost always around us anywhere at any time reaching our ears and stimulating our brains for better or worse Sound can be the disturbing noise of a drill a merry little tune sung by a friend the song of a bird in the morning or a clap of thunder at night The science of sound or acoustics studies all types of sounds and therefore covers a wide range of scientific disciplines from pure to applied acoustics Research dealing with acoustics requires a sound to be recorded analyzed manipulated and possibly changed This is particularly but not exclusively the case in bioacoustics and ecoacoustics two life sciences disciplines that attempt to understand and to eavesdrop on the sound produced by animals Sound analysis and synthesis can be challenging for students researchers and practitioners who have few skills in mathematics or physics However deciphering the structure of a sound can be useful in behavioral and ecological research and also very amusing This book is dedicated to anyone who wants to practice acoustics but does not know much about sound Acoustic analysis and synthesis are possible with little effort using the free and open source software R with a few specific packages Combining a bit of theory a lot of step by step examples and a few cases studies this book shows beginners and experts alike how to record read play decompose visualize parametrize change and synthesize sound with R opening a new way of working in bioacoustics and ecoacoustics but also in other acoustic disciplines

*Template Matching Techniques in Computer Vision* Roberto Brunelli,2009-04-29 The detection and recognition of objects in images is a key research topic in the computer vision community Within this area face recognition and interpretation has attracted increasing attention owing to the possibility of

unveiling human perception mechanisms and for the development of practical biometric systems This book and the accompanying website focus on template matching a subset of object recognition techniques of wide applicability which has proved to be particularly effective for face recognition applications Using examples from face processing tasks throughout the book to illustrate more general object recognition approaches Roberto Brunelli examines the basics of digital image formation highlighting points critical to the task of template matching presents basic and advanced template matching techniques targeting grey level images shapes and point sets discusses recent pattern classification paradigms from a template matching perspective illustrates the development of a real face recognition system explores the use of advanced computer graphics techniques in the development of computer vision algorithms *Template Matching Techniques in Computer Vision* is primarily aimed at practitioners working on the development of systems for effective object recognition such as biometrics robot navigation multimedia retrieval and landmark detection It is also of interest to graduate students undertaking studies in these areas

*Modern Stroke Rehabilitation through e-Health-based Entertainment* Emmanouela Vogiatzaki, Artur Krukowski, 2015-09-08 This book describes a new e Health approach to stroke rehabilitation The authors propose an alternative approach that combines state of the art ICT technologies ranging from Augmented and Virtual Reality gaming environments to latest advances in immersive user interfaces for delivering a mixed reality training platform along with advanced embedded micro sensing and computing devices exhibiting enhanced power autonomy by using the latest Bluetooth Smart communication interfaces and energy saving approaches These technologies are integrated under the umbrella of an online Personal Health Record PHR services allowing for delivery of personalized patient centric medical services whether at home in a clinic or on the move Describes innovative ways for achieving mixed reality gaming environments Enhances immersive experience by combining virtual projections with user interfaces based on body motion analysis Offers cost effective body motion capture by hybridizing wearable sensor data Utilizes energy efficient micro embedded sensors for wearable physiological and sensing and activity monitoring applications Includes innovative power autonomous sensing using Body Area Networks Describes the prototype of the portable integrated rehabilitation training solution

*Knowledge Discovery in Databases: PKDD 2007* Joost N. Kok, Jacek Koronacki, Ramon Lopez de Mantaras, Stan Matwin, Dunja Mladenic, 2007-08-31 This book constitutes the refereed proceedings of the 11th European Conference on Principles and Practice of Knowledge Discovery in Databases PKDD 2007 held in Warsaw Poland co located with ECML 2007 the 18th European Conference on Machine Learning The 28 revised full papers and 35 revised short papers present original results on leading edge subjects of knowledge discovery from conventional and complex data and address all current issues in the area

**Design of Field-based Crosstraining Programs and Implications for Readiness** William G. Wild, Rand Corporation, 1993 As part of a broad effort to reduce defense expenditures the Army is exploring a number of new approaches to training individual soldiers Prominent among these approaches is field based crosstraining FBCT which

involves combining two or more occupational specialties and shifting initial skill training from Army schools to on the job training in field units This report describes a method for analyzing the features advantages and disadvantages of field based crosstraining programs in the Army Focusing on the specific case of helicopter maintenance the report analyzes data from field units and recommends alternative field based crosstraining strategies for the Army An assessment of the Army's Apprentice Mechanic Initiative AMI for helicopter maintenance is included in the analysis

**Advances in Natural Computation, Fuzzy Systems and Knowledge Discovery** Hongying Meng, Tao Lei, Maozhen Li, Kenli Li, Ning Xiong, Lipo Wang, 2021-06-26 This book consists of papers on the recent progresses in the state of the art in natural computation fuzzy systems and knowledge discovery The book is useful for researchers including professors graduate students as well as R D staff in the industry with a general interest in natural computation fuzzy systems and knowledge discovery The work printed in this book was presented at the 2020 16th International Conference on Natural Computation Fuzzy Systems and Knowledge Discovery ICNC FSKD 2020 held in Xi'an China from 19 to 21 December 2020 All papers were rigorously peer reviewed by experts in the areas

**Adaptive Biometric Systems** Ajita Rattani, Fabio Roli, Eric Granger, 2015-10-22 This interdisciplinary volume presents a detailed overview of the latest advances and challenges remaining in the field of adaptive biometric systems A broad range of techniques are provided from an international selection of pre eminent authorities collected together under a unified taxonomy and designed to be applicable to any pattern recognition system Features presents a thorough introduction to the concept of adaptive biometric systems reviews systems for adaptive face recognition that perform self updating of facial models using operational unlabeled data describes a novel semi supervised training strategy known as fusion based co training examines the characterization and recognition of human gestures in videos discusses a selection of learning techniques that can be applied to build an adaptive biometric system investigates procedures for handling temporal variance in facial biometrics due to aging proposes a score level fusion scheme for an adaptive multimodal biometric system

**Advances in Intelligent Computing** De-Shuang Huang, Xiao-Ping Zhang, Guang-Bin Huang, 2005-09-16 The International Conference on Intelligent Computing ICIC was set up as an annual forum dedicated to emerging and challenging topics in the various aspects of advances in computational intelligence fields such as artificial intelligence machine learning bioinformatics and computational biology etc The goal of this conference was to bring together researchers from academia and industry as well as practitioners to share ideas problems and solutions related to the multifaceted aspects of intelligent computing This book constitutes the proceedings of the International Conference on Intelligent Computing ICIC 2005 held in Hefei Anhui China during August 23-26 2005 ICIC 2005 received over 2000 submissions from authors in 39 countries and regions Based on rigorous peer reviews the Program Committee selected 563 high quality papers for presentation at ICIC 2005 of these 215 papers were published in this book organized into 9 categories and the other 348 papers were published in five international journals The organizers of ICIC 2005 made

great efforts to ensure the success of this conference We here thank the members of the ICIC 2005 Advisory Committee for their guidance and advice the members of the Program Committee and the referees for reviewing the papers and the members of the Publication Committee for checking and compiling the papers We would also like to thank the publisher Springer for their support in publishing the proceedings in the Lecture Notes in Computer Science series Particularly we would like to thank all the authors for contributing their papers

### **Advances In Chinese Document And Text**

**Processing** Cheng-lin Liu,Yue Lu,2017-03-14 The book is a collection of invited chapters by experts in Chinese document and text processing and is part of a series on Language Processing Pattern Recognition and Intelligent Systems The chapters introduce the latest advances and state of the art methods for Chinese document image analysis and recognition font design text analysis and speaker recognition Handwritten Chinese character recognition and text line recognition are at the core of document image analysis DIA and therefore are addressed in four chapters for different scripts online characters offline characters ancient characters and text lines Two chapters on character recognition pay much attention to deep convolutional neural networks CNNs which are widely used and performing superiorly in various pattern recognition problems A chapter is contributed to describe a large handwriting database consisting both online and offline characters and text pages Postal mail reading and writer identification addressed in two chapters are important applications of DIA The collection can serve as reference for students and engineers in Chinese document and text processing and their applications

The Handbook of Continuing Professional Development for the Health IT Professional ,2017-04-21 Continuing professional development CPD is critical for the health IT professional Healthcare is fast paced dynamic ever changing and global It s both exciting and exhausting And it is rapidly evolving through innovation Federal incentives and technological advancements For these reasons health IT professionals must embrace lifelong learning to ensure they have the professional competencies to advance initiatives that positively impact patient care This handbook will provide the rationale and the resources to do so and will serve as a reference to accompany one s career success

**Computational Intelligence: Theories, Applications and Future Directions - Volume II** Nishchal K. Verma,A. K. Ghosh,2018-09-01 This book presents selected proceedings of ICCI 2017 discussing theories applications and future directions in the field of computational intelligence CI ICCI 2017 brought together international researchers presenting innovative work on self adaptive systems and methods This volume covers the current state of the field and explores new open research directions The book serves as a guide for readers working to develop and validate real time problems and related applications using computational intelligence It focuses on systems that deal with raw data intelligently generate qualitative information that improves decision making and behave as smart systems making it a valuable resource for researchers and professionals alike

**Progress in Pattern Recognition, Image Analysis, Computer Vision, and Applications** César Beltrán-Castañón,Ingela Nyström,Fazel Famili,2017-02-14 This book constitutes the refereed post conference proceedings of the 21st Iberoamerican Congress on Pattern Recognition CIARP

2016 held in Lima Peru in November 2016 The 69 papers presented were carefully reviewed and selected from 131 submissions The papers feature research results in the areas of pattern recognition biometrics image processing computer vision speech recognition and remote sensing They constitute theoretical as well as applied contributions in many fields related to the main topics of the conference Grand Challenges for Social Work and Society Rowena Fong,James E. Lubben,Richard P. Barth,2018 Grand Challenges for Social Work and Society is an edited book that captures the culmination of the work done on the Grand Challenges for Social Work Initiative GCSWI spearheaded by the American Academy of Social Work and Social Welfare AASWSW The GCSWI is a decade long undertaking intended to address some of the world s most difficult and complex social problems and this book presents the foundations of this endeavor as it will unfold

Developments in Information & Knowledge Management for Business Applications Natalia Kryvinska,Aneta Poniszewska-Marańda,2021-08-15 This book provides practical knowledge on different aspects of information and knowledge management in businesses In contemporary unstable time enterprises businesses deal with various challenges such as large scale competitions high levels of uncertainty and risk rush technological advancements while increasing customer requirements Thus businesses work continually on improving efficiency of their operations and resources towards enabling sustainable solutions based on the knowledge and information accumulated previously Consequently this third volume of our subline persists to highlight different approaches of handling enterprise knowledge information management directing to the importance of unceasing progress of structural management for the steady growth We look forward that the works of this volume can encourage and initiate further research on this topic
