Romance English Edition:

The Medieval Greek Romance Roderick Beaton, 2012-05-31 First published by CUP in 1989 The Medieval Greek Romance provides basic information for the non specialist about Greek fiction during the period 1071 1453 as well as proposing new solutions to problems that have vexed previous generations of scholars Roderick Beaton applies sophisticated methods of literary analysis to the material and the bridges of the artificial gap which has separated Byzantine literature in a form of ancient Greek as both homogenous and of a high level of literary sophistication Throughout consideration is given to relations and interconnections with similar literature in western Europe As most of the texts discussed are not available in English translation the argument is illustrated by lucid plot summaries and extensive quotation accompanied by literal English renderings For this edition The Medieval Greek Romance has been revised throughout and expanded with the addition of an Afterword which assesses and responds to recent work on the subject Thinking Medieval Romance Katherine C. Little, Nicola McDonald, 2018 Theoretically savvy and polemical arguments about a broad range of French Middle English and Mediterranean romances that will revise scholars and students understanding of what medieval romances are and more importantly what they do to and for their readers **Understanding Genre and Medieval Romance** K.S. Whetter, 2017-05-15 Unique in combining a comprehensive and comparative study of genre with a study of romance this book constitutes a significant contribution to ongoing critical debates over the definition of romance and the genre and artistry of Malory's Morte Darthur K S Whetter offers an original approach to these issues by prefacing a comprehensive study of romance with a wide ranging and historically diverse study of genre and genre theory In doing so Whetter addresses the questions of why and how romance might usefully be defined and how such an awareness of genre and the expectations that come with such awareness impact upon both our understanding of the texts themselves and of how they may have been received by their contemporary medieval audiences As an integral part the study Whetter offers a detailed examination of Sir Thomas Malory's Le Morte Darthur a text usually considered a straightforward romance but which Whetter argues should be re classified and reconsidered as a generic mixture best termed tragic romance This new classification is important in helping to explain a number of so called inconsistencies or puzzles in Malory's text and further elucidates Malory's artistry Whetter offers a powerful meditation upon genre romance and the Morte which will be of interest to faculty graduate students and undergraduates alike **Negotiating Secular and Sacred in Medieval Art** Amanda Luyster, 2017-07-05 Offering original analysis of the convergence between sacred and secular in medieval works of art and architecture this collection explores both the usefulness and limitations of these terms for describing medieval attitudes The modern concepts of sacred and secular are shown to be effective as scholarly tools but also to risk imposing false dichotomies The authors consider medieval material culture from a broad perspective addressing works of art and architecture from England to Japan and from the seventh to the fifteenth century Although the essays take a variety of

methodological approaches they are unified in their emphasis on the continuing and necessary dialectic between sacred and secular The contributors consciously frame their interpretations in terms and perspectives derived from the Middle Ages thereby demonstrating how the present art historical terminology and conceptual frameworks can obscure the complexity of medieval life and material culture The resonance among essays opens possibilities for productive cross cultural study of an issue that is relevant to a diversity of cultures and sub periods Introducing an innovative approach to the literature of the field this volume complicates and enriches our understanding of social realities across a broad spectrum of medieval worlds

Naming and Namelessness in Medieval Romance Jane Bliss, 2008 A survey of the significance of names or their absence in medieval English French and Anglo Norman romance Naming and namelessness are among the major themes of medieval romance Because the genre is so difficult to define scholars have viewed romance as containing a critical number of themes this book treats naming as a major theme of romance and furthermore examines romance's relationship with contemporary naming theory A new genre it is able to play with naming in a way that previously established genres are not The book begins with a discussion of the medieval background to romance and explores a series of naming patterns found across a broad range of texts It continues with detailed analysis of twenty one romances in English French and Anglo Norman from 1130 to 1500 to show how naming themes are treated differently in each and to demonstrate the importance of name as a generic marker Finally an appendix provides details of each romance's context together with indications for further research JANE BLISS is an independent scholar she gained her PhD from Oxford Brookes University
