Corsi,2024-08-13 In his new book *The Anti Globalist Manifesto Ending the War on Humanity* bestselling author Jerome Corsi puts out a call for action to reverse the totalitarian goals of the New World Order globalists Corsi addresses that these demons are well advanced in their planned One World Government takeover aimed at establishing an atheistic utopia that will have no respect for traditional human rights Comfortable that their transhuman aspirations are achievable the Malthusian elite is waging a war on humanity that embraces global depopulation as a means of preventing Earth s abundant natural resources for themselves Tracing this dystopian nightmare back to the assassination of President John F Kennedy on November 23 1963 as the day the deep state went rogue in a conspiracy involving the CIA the Pentagon the State Department and the Department of Justice to affect a coup d tat that would allow the military industrial complex to go to war in Vietnam the deep state has created an ongoing Truman Show a series of never ending psychological operations designed to induce citizens worldwide to surrender freedoms to government in return for security With the premise that the globalist elite uses systems of mass manipulation and social engineering to induce the world s population to accept the implementation of the reforms it has already decided to implement Corsi sets a detailed plan for organizing global resistance against the subversives who now sit at the top of the institutions or world government and finance *The Anti Globalist Manifesto* is a call to action to restore God to our lives as those of us fighting for a return to personal freedoms and limited government ending the war on humanity and driving once and for all time the New World Order globalists back to Hell where they belong **The Dark Side of Speech** Carlo Penco,2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press 4 The fourth

part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
