Mark has been written about Guy McCubbin's immense influence on California history, and on history beyond California's borders—and rightly so. But the subject of this book, the man who gave and gave back to California, has been Guy McCubbin's story of others. Guy was well prepared to maximize his influence during the inception of new history in California in the 1940s and 1950s. While others have given and given and had major influence on the education, Guy has devoted himself to the study and preservation of these birds well beyond all others. Guy was in the day of the founding members of the California Bird Records Committee, and he has remained a driving force of the Committee and now, Member of the CBR, past and present, proudly devoted his book to Guy, and with him many more who have been to him.
