*Beginning jQuery 2 for ASP.NET Developers* Bipin Joshi,2014-01-21 jQuery is the most popular JavaScript library in use today appearing on nearly two thirds of the 10 000 most visited sites on the web With this sort of popularity it s clear that ASP NET developers can t afford to miss out By combining jQuery with ASP NET you get the best of both worlds the client side interactivity and responsiveness of JavaScript with the robustness and extensibility of Microsoft s web stack Beginning jQuery 2 for ASP NET Developers shows you how To begin with you ll find out how jQuery hooks up with your ASP NET controls and simplifies event handling by keeping it in the browser Then you ll learn to handle dynamic content and responsive layouts by interacting with the DOM Effects and animations are one of the most popular uses of the jQuery library so we cover that next showing you how to get a sleek modern look and feel to your site using some of the vast library of JavaScript that s already out there waiting to be used Ajax is one of the areas where jQuery really shines so you ll find out how to make Ajax calls to a web service and get data onto a page without waiting for slow ASP NET postbacks every time And no book on jQuery would be complete without jQuery Mobile the popular mobile web framework that gets you writing sites that work across all the major mobile platforms      Virtual Reality and Augmented Reality Patrick Bourdot,Victoria Interrante,Luciana Nedel,Nadia Magnenat-Thalmann,Gabriel Zachmann,2019-10-07 This book constitutes the refereed proceedings of the 16th International Conference on Virtual Reality and Augmented Reality EuroVR 2019 held in Tallinn Estonia in October 2019 The 11 full papers and 5 short papers presented together with 8 scientific posters were carefully

reviewed and selected from 54 submissions The papers are organized in topical sections named Immersive Interaction Training Teaching and Learning Industrial Applications and Data Analysis Perception Cognition and Evaluation and Scientific Posters *Graphics Interface 2014* Paul G. Kry, Andrea Bunt, 2020-11-25 This book is the proceedings of the 40th annual Graphics Interface conference the oldest continuously scheduled conference in the field The book includes high quality papers on recent advances in interactive systems human computer interaction and graphics from around the world It covers the following topics shading and rendering geometric modeling and meshing image based rendering image synthesis and realism computer animation real time rendering non photorealistic rendering interaction techniques human interface devices augmented reality data and information visualization mobile computing haptic and tangible interfaces and perception

*Lithium-Ion Cells* Yury Koshtyal, Alexander Rumyantsev, 2024-12-24 A large quantity of articles and books have been published on the designated topics However most of the literary sources describe the results of scientific articles on the synthesis and study of perspective materials reveal circuit and design solutions for constructing control systems and manufacturing batteries and are educational materials At the same time a small part of the published sources includes the following descriptions of materials produced industrially and used in the LIC manufacturing process demonstrations of the industrially produced LIC energy and power parameters analysis of the characteristics of manufactured miniature lithium ion cells solid state LICs lithium metal cells and all solid state cells as well as others Considering the popularity of the discussed topics one can hope to find detailed information on the Internet Indeed modern search engines make it possible to locate a sufficiently large number of relevant documents However while conducting such research we encountered the following challenges the data are somewhat fragmented and their systematization and structuring are required search results do not always meet search queries For instance data that were relevant to the topic were found but they did not match the query as accumulated data grow the search time for new information extends the choice of search engine and location different countries affects search results the data are not indexed in search engines although the correct keywords and website were requested the information disappears due to website updates and the found data require additional processing For example many presentations show changes in the shape of the discharge curves depending on the discharge current strength In addition however Ragone plots are necessary for a correct comparison and therefore the mathematical processing of presented results is required Thus this book was written to systematize and structure information on industrially produced materials for LIC manufacturing and industrially produced and promising LICs and lithium metal rechargeable cells for various applications
