Religion is an integral part of mankind and affects everybody regardless of religious inclination or posturing. The reality of our contemporary world is that matters of religion will literally stare you in the face; it is ineluctable. There exists a wide spectrum of dedication, disinclination, and aversion to religion, and the potential extremism among all categories is existential. In certain instances, adopted positions sometimes manifest as an aversion to religion, and by extension, God. Historically, great minds, thinkers, philosophers, and scientists have tried to decipher the meaning of life, and the matter of religion played a recurring role. In understanding the complexities of religion, the matter should ideally be approached via holistic and historical analysis with the aim of unravelling its primal objective. The propositions of this project are derived from various academic sources, including theological exegesis, primarily Biblical and Quranic. P R I S M considers every form of belief and non-belief, from the agnostic to the atheist, Christian to Hindu, Jew to Muslim, and traditionalist to Zoroastrian. Maybe the concept of religion has been misunderstood and misrepresented. P R I S M is a multidisciplinary and rational approach to the matter of God and religion from a universal viewpoint. Potentially, a proper understanding of these issues may assist mankind in its quest for peaceful coexistence. **The Camcorder User's Video Handbook** Peter Davison, 1993
