By claiming that it does not necessarily belong to any one mind in particular is inferring then that the self is not in fact a property. Then how can it be said to exist? Thomas Reid (Macquarie, lecture 17) also raises an important objection to Locke's theory of personal identity that seems fairly self-evident to me. We can consider a man as: a child, then in middle age and at old age. If the man in middle age can remember occurrences when he was a young boy, but now that he is an old man can't, then can he be considered a different person from the young boy?

Of Personal Identity Hume

According to Locke the old man is the same as the middle aged one, and the middle aged is the same as the child. Yet there is no continuity of consciousness between the three, any break in memory would render them a 'non-person' if we follow Locke's argument-clearly it is logically inconsistent. David Hume's 'bundle theory' of the self seems to me rather more logically coherent. He claimed that humans tend to think of themselves as the same person as they were, say, 10 years ago; that we believed that although one had evolved over the period in a number of ways that the self had endured.

According to Hume however, this was a mistake, and when examined empirically no more than a practical habit: "I never can catch myself at any time without a perception, and never observe anything but the perception"(TI, vi, p. 251). It is clear, posits Hume, our thoughts and perceptions flow from one idea to the next; so we encounter a 'bundle', or grouping, of perceptions throughout our life but no actual continuous and enduring underlying self- or "I" -as a 'unity of consciousness'.

While there is a stability of perceptions over the short term, and some loose association of experiences, there is no overarching continuity of "I" in reality. Hume agrees that we extend over time in actions, we begin a job and finish it some time later, and that our desires also extend in some sort of continuity over time. Furthermore our physical bodies endure reasonably consistently; we age gradually. This according to Hume is what ultimately defines our sense of personal identity. While Hume's theory of the self is attractive in my view, if anything it doesn't go far

Personal and Moral Identity A.W. Musschenga, A.W. van Haaften, B. Spiecker, M.V. Slors, 2013-03-14 The subject of personal and moral identity is at the centre of interest not only of academic research within disciplines such as philosophy and psychology but also of everyday thinking This is why the Netherlands School for Research in Practical Philosophy and the Institute for Ethics of the Vrije Universiteit in Amsterdam took the initiative to bring together scholars from various disciplines interested in the subject The expert seminar on Personal and Moral Identity took place from 12-14 January 1999 Financial contributions from the Vrije Universiteit the Dutch Scientific Organisation NWO and the Royal Dutch Academy for the Sciences KNAW made the event possible The chapters in this book

either go back to papers presented at the seminar or were written afterwards by participants inspired by the discussions that took place during the seminar We are very grateful to Dr Hendrik Hutter for his assistance in editing the texts and making the manuscript camera ready December 2001 The Editors 1 Introduction Albert W Musschenga Although scholars studying the identity of persons usually address diverging issues and have different research agendas there is a growing awareness that one may benefit from insights and results present in other disciplines dealing with that subject This explains the enthusiastic responses to the invitation of the Netherlands School for Research in Practical Philosophy and the Institute for Ethics of the Vrije Universiteit to participate in a seminar on Personal and Moral Identity Personal Identity and Literature Patrick Colm Hogan, 2019-05-17 In *Personal Identity and Literature* Hogan examines what makes an individual a particular unique self He draws on cognitive and affective science as well as literary works from Walt Whitman and Frederick Douglass to Dorothy Richardson Alice Munro and J M Coetzee His scholarly analyses are also intertwined with more personal reflections on for example his mother's memory loss The result is a work that examines a complex topic by drawing on a unique range of resources from empirical psychology and philosophy to novels films and biographical experiences The book provides a clear systematic account of personal identity that is theoretically strong but also unique and engaging **Hume on the Self and Personal Identity** Dan O'Brien, 2022-08-30 This book brings together a team of international scholars to attempt to understand David Hume's conception of the self The standard interpretation is that he holds a no self view we are just bundles of conscious experiences thoughts and emotions There is nothing deeper to us no core no essence no soul In the Appendix to *A Treatise of Human Nature* though Hume admits to being dissatisfied with such an account and Part One of this book explores why this might be so Part Two turns to Books 2 and 3 of the *Treatise* where Hume moves away from the fiction of a simple self to the complex idea we have of our flesh and blood selves those with emotional lives practical goals and social relations with others In Part Three connections are traced between Hume and Madhyamaka Buddhism Husserl and the phenomenological tradition and contemporary cognitive science *Personal Identity and Buddhist Philosophy* Mark Siderits, 2017-05-15 Since the publication of Mark Siderits' important book in 2003 much has changed in the field of Buddhist philosophy There has been unprecedented growth in analytic metaphysics and a considerable amount of new work on Indian theories of the self and personal identity has emerged Fully revised and updated and drawing on these changes as well as on developments in the author's own thinking *Personal Identity and Buddhist Philosophy* second edition explores the conversation between Buddhist and Western Philosophy showing how concepts and tools drawn from one philosophical tradition can help solve problems arising in another Siderits discusses afresh areas involved in the philosophical investigation of persons including vagueness and its implications for personal identity recent attempts by scholars of Buddhist philosophy to defend the attribution of an emergentist account of personhood to at least some Buddhists and whether a distinctively Buddhist antirealism can avoid problems that beset other forms of ontological anti-foundationalism **Problems of the**

Philosophy of Personal Identity and Multiple Personality Logi Gunnarsson, 2009-09-11 This study offers both a full fledged philosophical theory of personal identity and a systematic account of multiple personality Gunnarsson combines the methods of analytic philosophy with close hermeneutic and phenomenological readings of cases from different fields focusing on psychiatric and psychological treatises self help books biographies and fiction **Objects and Identity** Harold W.

Noonan, 2013-03-09 Identity has for long been an important concept in philosophy and logic Plato in his Sophist puts same among those forms which run through all others The scholastics inherited the idea and the terminology classifying same as one of the transcendentals i.e. as running through all the categories The work of Locke and Leibniz made the concept a problematic one But it is rather recently i.e. since the importance of Frege has been generally recognized that there has been a keen interest in the notion formulated by him of a criterion of identity This at first sight harmless as well as useful has proved to be like a charge of dynamite The seed had indeed been sown long ago by Euclid In Book V of his Elements he first gives a useless definition of a ratio A ratio is a sort of relation between two magnitudes in respect of muchness But then in definition 5 he answers not the question What is a ratio but rather What is it for magnitudes to be in the same ratio and this is the definition that does the work *Personal Identity and Resurrection* Georg Gasser, 2010 In Personal Identity and

Resurrection leading philosophers and theologians present an indispensable resource for anyone interested in the doctrine of bodily resurrection be they philosophers theologians scholars in religious studies or believers interested in examining their faith **Controversies and the Metaphysics of Mind** Yaron M. Senderowicz, 2010 Since ancient times metaphysical

theories have been shaped by the dialectical relations between metaphysical positions The present book offers a new account of the role of controversies in the evolution of ideas in current metaphysics of mind Part One develops a pragmatic theory of metaphysical controversies that combines Kantian themes and themes from current argumentation theory The theory developed in this book underscores the role of a unique type of dialectical arguments which establish metaphysical positions as controversial relevant alternatives in the evolution of chains of debates in metaphysics In Part Two and Part Three this theory is applied to chains of debates in present day metaphysics of mind which address the problems of consciousness and personal identity One of the contentions defended in this book is that the intellectual history of metaphysics is not a process in which positions are replaced by opposite positions but rather a history of their status as relevant alternatives The book analyzes in detail and demonstrates how progress in contemporary metaphysics of mind consists in a dialectical process through which challenges to extant positions lead to innovative alternatives that are intrinsically relevant to advancing the

Identity is one of the most extensively studied constructs in the social sciences. Yet despite the wealth of findings across many disciplines, identity researchers remain divided over such enduring fundamental questions as: What exactly is identity and how do identity processes function? Do people have a single identity or multiple identities? Is identity individually or collectively oriented? Personally or socially constructed? Stable or constantly in flux? The *Handbook of Identity Theory and Research* offers the rare opportunity to address the questions and reconcile these seeming contradictions, bringing unity and clarity to a diverse and fragmented literature. This exhaustive reference work emphasizes the depth and complexity of identity processes and domains and presents perspectives from many different theoretical schools and empirical approaches. Contributing authors provide perspectives from psychology (e.g., narrative, social identity theory, neo-Eriksonian) and from other disciplines (e.g., sociology, political science, ethnic studies), and the editors highlight the links between chapters that provide complementary insights on related subjects. In addition to covering identity processes and categories that are well known to the field, the *Handbook* tackles many emerging issues, including: Identity development among adopted persons; Identity processes in interpersonal relationships; Effects of globalization on cultural identity; Transgender experience and identity; Consumer identity and shopping behavior; Social identity processes in xenophobia and genocide. The *Handbook of Identity Theory and Research* lends itself to a wealth of uses by scholars, clinicians, and graduate students across many disciplines, including social, developmental, and child school psychology; human development and family studies; sociology; cultural anthropology; gender, ethnic, and communication studies; education; and counseling.
