

18. A person needs a lens of power -4.5 D for correction of her vision.

- What kind of defect in vision is she suffering from?
- What is the focal length of the corrective lens?
- What is the nature of the corrective lens?

Soln:

- Answer is Myopia
- $P = \frac{1}{f} \Rightarrow f = \frac{1}{P} = \frac{1}{-4.5} = -0.22 \text{ m}$
- Negative sign shows that it is a concave lens.

19. How will you use two identical prisms so that a narrow beam of white light incident on one prism emerges out of the second prism as white light? Draw the diagram.

Soln:

By placing two identical prism inverted with respect to the other we get a narrow beam of white light incident on one prism emerges out of the second prism as white light.

Figure 11.6 Recombination of the spectrum of white light

20. Draw a ray diagram showing the dispersion through a prism when a narrow beam of white light is incident on one of its refracting surfaces. Also indicate the order of the colours of the spectrum obtained.

Jaynes** Edwin T. Jaynes,1989-04-30 The first six chapters of this volume present the author s predictive or information theoretic approach to statistical mechanics in which the basic probability distributions over microstates are obtained as distributions of maximum entropy Le as distributions that are most non committal with regard to missing information among all those satisfying the macroscopically given constraints There is then no need to make additional assumptions of ergodicity or metric transitivity the theory proceeds entirely by inference from macroscopic measurements and the underlying dynamical assumptions Moreover the method of maximizing the entropy is completely general and applies in particular to irreversible processes as well as to reversible ones The next three chapters provide a broader framework at once Bayesian and objective for maximum entropy inference The basic principles of inference including the usual axioms of probability are seen to rest on nothing more than requirements of consistency above all the requirement that in two problems where we have the same information we must assign the same probabilities Thus statistical mechanics is viewed as a branch of a general theory of inference and the latter as an extension of the ordinary logic of consistency Those who are familiar with the literature of statistics and statistical mechanics will recognize in both of these steps a genuine scientific revolution a complete reversal of earlier conceptions and one of no small significance **Longman Science Chemistry 10** Kohli Nitin,2008-09 [150 technical questions and answers for job interview Offshore Oil & Gas Rigs](#) Petrogav International Oil & Gas Training Center,2020-06-30 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions are so common hiring managers will expect you to be able to answer them smoothly and without hesitation This eBook contains 150 questions and answers for job interview and as a BONUS web addresses to 230 video movies for a better understanding of the technological process This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry **200 technical questions and answers for job interview Offshore Oil & Gas Rigs** Petrogav International Oil & Gas Training Center,2020-06-30 The job interview is probably the most important step you will take in your job search journey Because it s
