Cosmetic Bootcamp Primer Kenneth Beer, Mary P. Lupo, Vic A. Narurkar, 2011-01-18 Minimally invasive aesthetic procedures continue to be popular with patients so many medical practitioners who have not previously specialized in the field or practiced very widely are either turning to this area or expanding the range of treatments they currently offer These practitioners require a basic primer to get them up to speed on the details of treatments as well as expert tips on the idiosyncratic demands involved in running an aesthetic practice The Cosmetic Bootcamp meetings began as a way for colleagues in dermatology plastic surgery ophthalmology and otorhinolaryngology to teach each other in a collegial environment The meetings are designed to provide physicians in these specialties a forum to exchange ideas explore new technologies and techniques and discuss ways to improve patient care The focus is on advancing the science and outcomes using a multidisciplinary approach Drawn from these meetings *Cosmetic Bootcamp Primer Comprehensive Aesthetic Management* presents a succinct but comprehensive textbook from a team with extensive experience in training newcomers to the field of aesthetic practice The first part of the text details how a practice needs to be run for optimum impact and efficiency Both new and seasoned practitioners will find much advice in this section for improving their daily office operation to help them compete effectively The second section reviews the essentials of the clinical treatments Each of the core aesthetic specialties are included and chapters contain what the editors consider essential information as well as a few pearls The book is supplemented with downloadable resources to enable users to experience the flavor of the actual Cosmetic Bootcamp meetings Future versions of this text will include internet based interactions to foster further discussions For those interested in a more direct interaction please visit Cosmetic Boot Camp to see dates for upcoming meetings **A Social History of Administrative Science in Italy** Andrea Rapini, 2023-01-01 This book traces the origins life and death of Administrative Science in Italy as an academic discipline between the nineteenth and twentieth centuries It does so by combining the study of ideas institutional history intellectual history and social history The Faculty of Law first introduced Administrative Science in 1875 with the aim of providing the elite with the necessary tools to distribute wealth more equally

to take care of the population and thus to make the young Italian State more legitimate in the eyes of the emerging masses
Law and social sciences were merged with the aim of increasing reforms including that of creating a State of Happiness for
all citizens Throughout its 70 year existence Administrative Science was deprived of its contents and scientific independence
and academically overshadowed by Administrative and Public law Finally although the liberal elites discarded the reformer
project of Administrative Science even before Fascism turned everything upside down most of the original traits of this
knowledge were absorbed into Fascist corporate and totalitarian structures Journal of the American Medical Association
