

My favorite food essay sample

We need food for various reasons. Some of the grounds get based on their nutritious nature and the good substances they offer to us. The result gets noted in the maintenance of life and continuity of growth of both body organs and other complex structures (Beeton, 2012). Even as the assertion gets noted, different people got preferences of different food. Therefore, the paper gets founded on my favorite food, the one that I enjoy most every time I consume.

The food that favors my interest gets based on broccoli. Whenever I consume this food, some sense of health and safety gets restored to me. Equally impressive, broccoli gets noted as a delicious food especially its roasted florets that usually come with 5 min prep and tossed in parmesan- garlic (Rose & 3M Company, 2014). Whenever I get to consume it in this combination, I get fulfilled and feel its side of perfection. The food reassures me of my freedom concerning diseases like cancer due to its component of glucoraphanin which provides anti- cancer compound of sulforaphane. The food also gets packed with soluble fiber that draws cholesterol out of an individual's body. This food despite getting noted as a vegetable stands out as one of my best food substances. It makes me get the great sense of health and make me look too.

Conclusion

Broccoli stands out as my favorite food due to the health benefits that it offers to me as depicted in the entire paper. The benefits mentioned on the food gets noted as a few credits among other numerous advantages. The delicacy of the food gets justified by the large consumption that gets recorded across the globe;

Departing from Tradition Jay Bidal, Evelyn Doman, 2016-05-11 English language teaching methods and language learning styles have changed dramatically over the past decade in Asia and the surrounding regions. Huge efforts are being made by teachers from the K-12 system as well as at the tertiary level to move away from the traditional Grammar Translation Method towards more communicative approaches to teaching and learning including the use of project and task based learning and technology enhanced language learning just to name a few of the more frequently used methodologies. In this book the authors shed light on the changes in ELT in Asia and the region over the past 10 years or so as seen in the wider context of language policy which puts greater value on the acquisition of English and the new directions in learner centered classrooms which encourage student autonomy and voice and place students as active decision makers in the learning process. With the title of *Departing from Tradition: Innovations in English Language Teaching and Learning* this book showcases some of the innovations in ELT that are currently happening in this rapidly growing field. Given the growing importance of English and the enormous energy and enthusiasm in the region for learning the language in both formal and informal contexts, ELT will continue to flourish. This volume will offer insights into the tremendous changes that have been made in secondary and university English language classrooms across the region.

There are stories that have happy endings and alas many with sad conclusions. There are many animal nature and sports stories and best of all stories about aquatic life: fish. As I have encountered life's mysteries throughout my life's journey of 86 years, I have recorded the psychological, emotional, and physical impact on the human and animal world.
