Monarch Butterfly

Adult Monarch

Did you know?

Did you know that Monarch Butterflies are poisonous to frogs, birds, and other predators?

Monarch butterflies go through four stages during one life cycle, and through four generations in one year. It's a little confusing to keep reading and you will understand. The four stages of the monarch butterfly **life cycle** are the egg, the larvae (caterpillar), the pupa (chrysalis), and the adult butterfly. The four generations are actually four different butterflies going through these four stages during one year until it is time to start over again with stage one and generation one.

Young Meaning Makers—Teaching Comprehension, Grades K-2 D. Ray Reutzel, Sarah K. Clark, Cindy D. Jones, Sandra L. Gillam, 2016-05-01 One of the most critical elements in the Common Core State Standards (CCSS) is the effective teaching of reading comprehension in the early years. This timely resource provides evidence-based practices for teachers to use as they work to meet standards associated with comprehending complex literature and informational texts. The authors offer a practical model with classroom applications drawing on the Construction Integration (CI) model of text comprehension. Illustrating why comprehension is so important in the CCSS framework, the book distills six key principles for meeting CCSS and other high challenge standards. Chapters show teachers how to build oral language and text comprehension skills with young readers, including selecting texts, organizing materials, scheduling time, and assessing the acquisition of knowledge. **Book Features:** A practitioner-friendly model for teaching comprehension of informational and narrative texts in the early grades; Guidance for how to create a classroom environment that supports oral language acquisition; Instructional strategies including teaching children to understand text structures, key details, and main ideas of a story or information text; A standards-based series of formative comprehension assessments. Read it with the gusto it provides and deserves and go out into your classrooms and make texts come to life through the magic of understanding. Foreword by P. David Pearson, University of California, Berkeley. This is a must-read for teachers and educators as they strive to meet the new literacy standards and improve reading comprehension outcomes for their students. Linda B.
