Section 1 Mobilization On The Homefront Answers:

Home Front Battles Charles C. Bolton, 2024 Home Front Battles examines the many effects of World War II economic and military mobilization on the Deep South. It also underscores one of the primary home front battles which began with the passage of the Selective Training and Service Act in 1940 and the creation of the Fair Employment Practices Committee in 1941 banning discriminatory military training and employment practices and making it clear that the federal government would be promoting the ideal of nondiscrimination as part of its wartime mobilization efforts. In the Deep South where race relations were already tense, these directives and southern tradition clashed.

Methods of Life Course Research Janet Z. Giele, Glen H. Elder, 1998-03-10 What are the most effective methods for doing life course research? The field's founders and leaders answer this question, giving readers tips on the art and method of the appropriate research design, the collection of life history data, and the search for meaningful patterns to be found in the results.

The Greatest Generation Comes Home Michael D. Gambone, 2005-10-18 At the conclusion of World War II, Americans anxiously contemplated the return to peace. It was an uncertain time filled with concerns about demobilization, inflation, strikes, and the return of a second Great Depression. Balanced against these challenges was the hope in a future of unparalleled opportunities for a generation raised in hard times and war. One of the remarkable untold stories of postwar America is the successful assimilation of sixteen million veterans back into civilian society after 1945. The G I generation returned home filled with the same sense of fear and hope as most citizens at the time. Their transition from conflict to normalcy is one of the greatest chapters in American history. The Greatest Generation Comes Home combines military and social history into a comprehensive narrative of the veteran's experience after World War II. It integrates early impressions of home in 1945 with later stories of medical recovery, education, work, politics, and entertainment, as well as moving accounts of the dislocation, alienation, and discomfort many faced. The book includes the experiences of not only the millions of veterans drawn from mainstream white America but also the women, African Americans, Latinos, and Asian Americans who served the nation. Perhaps most important, the book also examines the legacy bequeathed by these veterans to later generations who served in uniform on new battlefields around the world.

Women** Melissa A. McEuen,2011-02-15 Drawing on war propaganda popular advertising voluminous government records
and hundreds of letters and other accounts written by women in the 1940s Melissa A McEuen examines how extensively
women s bodies and minds became battlegrounds in the U S fight for victory in World War II Women were led to believe that
the nation s success depended on their efforts not just on factory floors but at their dressing tables bathroom sinks and
laundry rooms They were to fill their arsenals with lipstick nail polish creams and cleansers in their battles to meet the
standards of ideal womanhood touted in magazines newspapers billboards posters pamphlets and in the rapidly expanding
pinup genre Scrutinized and sexualized in new ways women understood that their faces clothes and comportment would
indicate how seriously they took their responsibilities as citizens McEuen also shows that the wartime rhetoric of freedom
democracy and postwar opportunity coexisted uneasily with the realities of a racially stratified society The context of war
created and reinforced whiteness and McEuen explores how African Americans grappled with whiteness as representing the
true American identity Using perspectives of cultural studies and feminist theory Making War Making Women offers a broad
look at how women on the American home front grappled with a political culture that used their bodies in service of the war
effort
