▼ Question 1: ✓ Correct

Ron, a hacker, wants to get access to a prestigious law firm he has been watching for a while. June, an administrative assistant at the law firm, is having lunch at the food court around the corner from her office. Ron notices that June has a picture of a dog on her phone. He casually walks by and starts a conversation about dogs. Which phase of the social engineering process is Ron in?

- ☐ Elicitation phase
- ☐ Exploitation phase
- ➡ ☒ Development phase
- ☐ Research phase

Explanation

The development phase involves two parts. These are selecting individual targets within a company and forming a relationship with those individuals.

The exploitation phase is when the attacker takes advantage of the relationship with the victim and uses the victim to extract information, obtain access, or accomplish the attacker's purposes in some way.

The research phase is when the attacker starts gathering information about the target company or organization.

Elicitation is a technique used to extract information from a target without arousing suspicion.
