The Feminine Principle in the Sikh Vision of the Transcendent Nikky-Guninder Kaur Singh, 1993-09-24 This work is a critical analysis of Sikh literature from a feminist perspective It begins with Guru Nanak's vision of Transcendent Reality and concludes with the mystical journey of Rani Raj Kaur the heroine of a modern Punjabi epic The eight chapters of the book approach the Sikh vision of the Transcendent from historical scriptural symbolic mythological romantic existential ethical and mystical perspectives Each of these discloses the centrality of the woman and show convincingly that Sikh Gurus and poets did not want the feminine principle to serve merely as a figure of speech or literary device it was intended rather to pervade the whole life of the Sikhs The present work bolsters the claim that literary symbols should be translated into social and political realities and in so doing puts a valuable feminist interpretation on a religious tradition which has remained relatively unexplored in scholarly literature

Testimony Shoshana Felman, Dori Laub, 2013-10-18 In this unique collection Yale literary critic Shoshana Felman and psychoanalyst Dori Laub examine the nature and function of memory and the act of witnessing both in their general relation to the acts of writing and reading and

in their particular relation to the Holocaust Moving from the literary to the visual from the artistic to the autobiographical and from the psychoanalytic to the historical the book defines for the first time the trauma of the Holocaust as a radical crisis of witnessing the unprecedented historical occurrence of an event eliminating its own witness Through the alternation of a literary and clinical perspective the authors focus on the henceforth modified relation between knowledge and event literature and evidence speech and survival witnessing and ethics

Climate Change Action and the Responsibility to Protect Ben L. Parr, 2023-11-29 This book brings together two important fields in the study of international politics and policy climate change adaptation and mitigation climate action and the Responsibility to Protect R2P Both have attracted strong scholarly attention in each of their respective research silos but there is yet to be a strong research push that explores the relationship between the two Filling this gap Ben L Parr argues that the climate action and the R2P agendas share a common goal to protect vulnerable human populations from large scale harm To substantiate this argument Parr reveals where the historical conceptual and operational parallels exist between the two agendas and where and when researchers and practitioners from both camps might work together in practice to achieve their common goal in the challenging years ahead Notably the book builds on recent efforts by Western governments in the UK US and EU to integrate climate action policies into conflict prevention and response policies To achieve this the volume situates a variety of climate action policies alongside the 46 policy options found in the R2P operational framework commonly known as the R2P toolbox across its prevention reaction and rebuilding phases Climate Change Action and the Responsibility to Protect will be of significant interest to policy orientated students and scholars those working at the academic policy interface in the NGO community as well as those working in government and international organisations

A Consuming Fire John K. Roth, 2016-08-26 No catastrophe challenges treasured beliefs and cherished hopes more than the Holocaust Nazi Germany's genocide against the European Jews during World War II Fueled by virulent racist anti-Semitism that disaster which targeted Judaism as well as every Jewish life within the Third Reich's lethal grasp still underlines the fragile status of human rights and ethics still undercuts optimism about human progress and still undermines confidence about God's moral authority providential engagement with human history and even God's existence itself Elie Wiesel who died in 2016 was one of the relatively few
