Cadieux, 2016-04-01 Safety performance is a complicated issue particularly in high hazard environments where time and other constraints can be amplified and result in numerous impacts From an organizational and business perspective safety and production performance are often seen as competing goals When production is increased safety defenses and barriers frequently decrease and when programs are developed in an effort to improve safety employees may be unable to meet production goals within the safety constraints Team Leadership in High Hazard Environments recognizes these difficulties and constraints and proposes an approach to safety leadership in which safety and organizational performance are inextricably linked one that addresses safety from both the systems and human factors perspectives To that end Randy

Cadieux introduces the nine essential components to team leadership. By studying these areas and using the information in each chapter, organizational leaders, managers, and supervisors will gain an understanding of key factors that will help them design, develop, and implement team training programs that improve the way employees work together and the way they mitigate hazards. Additionally, the book describes how work systems and work environments may be designed or shaped so that teams are placed in a position to do their optimal work, maximizing the potential for human and team performance. This is an important book that draws on techniques and models developed from Crew Resource Management, human factors, risk management, as well as more traditional HR management disciplines.

Effective Onboarding Norma Davila, Wanda Pina-Ramirez, 2018-09-18 Onboarding turns the key opening the door to talent development. Investing in onboarding means investing in employee success and the business of the future. Effective onboarding programs both increase and facilitate employee engagement and business results; onboarding shortens the employee learning curve by increasing job knowledge. If you need to design, revise, or expand your company's onboarding program, *Effective Onboarding* offers a simple-to-follow path forward. Talent development experts Norma Davila and Wanda Pina-Ramirez combine their significant consulting experience and the latest onboarding trends to create a single source for onboarding best practices, job aids, templates, and checklists. Also included are examples and stories based on real-life situations the authors have encountered in their practice. While many books about onboarding limit their approach to employee recruitment and selection, this book is more comprehensive, following employees through their first year on the job. *Effective Onboarding* clarifies the differences between orientation and onboarding, describes how to build a business case for your onboarding program, and guides you to design, implement, evaluate, and sustain the program that's right for your organization. *Effective Onboarding* is part of a new ATD series, *What Works in Talent Development*, which addresses the most critical topics facing today's talent development practitioners. Each book in the series is written for trainers by trainers and offers a clear, step-by-step path to solve real issues.

Leading Dispersed Teams Center for Creative Leadership (CCL), Michael E. Kossler, Sonya Prestridge, 2011-08-17 This is a book about leading dispersed teams—teams that are made up of people who don't work in the same geographical area. Such teams don't often meet face-to-face. Usually, their members are separated by time and distance, and they often bring different cultural views to bear on their work. Solving potential communication problems and devising processes for making decisions and managing conflict are challenges for leaders of dispersed teams. But before they can address those challenges, they need to analyze the support such a team will get from the organization as a whole. Dispersed teams are a necessary strategic work unit in a world that continues to grow more interconnected every day. Guiding them to their full potential is a difficult challenge for even the most seasoned team leader.
