Question	What did you learn? Explain the concept in your own words. Be specific!	What concepts did you find interesting? Explain why.
1. Overview of the course	Learned that the course is designed to provide a comprehensive overview of the field of computer science, covering both theoretical and practical aspects.	Found the course structure and the variety of topics covered to be very interesting, especially the combination of theory and practice.
2. Theoretical concepts	Learned about the importance of algorithms and data structures in computer science, and how they are used to solve complex problems.	Found the theoretical concepts to be very challenging, but also very rewarding, especially when they are applied to real-world problems.
3. Practical applications	Learned about the various applications of computer science, such as artificial intelligence, robotics, and data science, and how they are used in the real world.	Found the practical applications to be very interesting, especially the way they are used to solve real-world problems, and the impact they have on society.
4. Future of the field	Learned about the future of computer science, and the challenges and opportunities that lie ahead, such as the development of new technologies and the need for ethical considerations.	Found the future of the field to be very exciting, and the challenges and opportunities to be very motivating, especially the potential for making a positive impact on the world.
