### **Section 1 Guided Reading, pp 173-183**

#### **1. The North pp 173-176**

**Read the first two paragraphs on page 173. Why was the nation fragile?**

The nation was fragile because many citizens resisted giving up powers to a national government and the first two parties, Feds and DemoRepubs, expressed strong regional differences.

**What does Daniel Webster refer to in his quote at the top of the page?**

He talks about the 3 different US regions and how they are about to be thrown into a war with each other.

##### **The North**

made of two parts- Northeast which included NE and Middle Atlantic states and the old Northwest Minnesota-Ohio; northern states bound together by transportation routes and rapid economic growth based on farming and industrial innovation; majority still involved in agriculture; most populous bc of high birth rate and increased immigration

##### **The Industrial Northeast**

before, industrial Rev, centered in textile industry but by 1830's northern factories were producing wide range of goods

##### **Organized Labor**

people becoming dependent on wages earned in factories; common problems of long hours, low pay, and poor conditions, urban workers in diff cities organized both unions and local political parties to protect interests

##### **Urban Life**

population growth in North; slums expanded as result; crowded housing, disease, poor sanitation, and higher crime rate; new opportunities in cities offered by Industrial Rev continued to attract Native born Americans from farms and immigrants from Europe

##### **African Americans**

constituted only 1% of northerners but represented 50% of all free African Americans; gave them ability to have families and maybe own land but no right to economic or political equality; racial prejudice kept them from voting and holding jobs so immigrants displaced them; blacks denied membership in unions so often were hired as strikebreakers and dismissed after strike ended

##### **The Agricultural Northwest**

Old Northwest consisted of 6 states admitted to union before 1860; states came from territories formed out of land ceded to national govt; procedure for turning these territories into states was part of Northwest ordinance; region became closely tied to other northern state by military
