Competition in Religious Life Jay Newman,2006-01-01 In his latest work on the social consequences of religious commitment Jay Newman reveals in clear and concise fashion the extent to which competitiveness is an essential feature of religious life His assessment charts various classical strategies that have been proposed for either eliminating such competitiveness or directing it into appropriate channels After a detailed philosophical analysis of the nature and value of competition the author examines competition between denominations and within denominations and considers religious competition in some of its less obvious forms In the process of evaluating the methods for curbing religious competition advocated by such thinkers as Spinoza and Lessing as well as by modern ecumenists the author points the way to a general approach to religious competition that minimizes destructive religious conflicts without ignoring the positive value of religious competition

The Return of Religious Antisemitism? Gunther Jikeli,2021-02-17 The most violent American and European anti Semites in the 21st century including not only Jihadists but also white and black supremacist terrorist made some reference to religion in their hatred of Jews This is surprising Religious antisemitism is often seen as a relic of the past It is more associated with pre modern societies where the role of religion was central to social and political order However at the end of the 19th century animosity against Judaism gave way to nationalistic and racist motives People such as Wilhelm Marr called themselves anti Semites to distinguish themselves from those who despised Jews for religious reasons Since then antisemitism has gone through many mutations However today it is not only the actions of extremely violent anti Semites who might be an indication that religious antisemitism has come back in new forms Some churches have been accused of disseminating antisemitic arguments related to ideas of replacement theology in modernized forms and applied to the Jewish State Others from the populist nationalist right seem to use Christianity as an identity marker and thus exclude Jews and Muslims from the nation Do religious motifs play a significant role in the resurgence of antisemitism in the 21st century
