Reauthorizing No Child Left Behind Brian M. Sartre and No Child Left Behind , Darian M. Parker, 2015-12-16 Sartre and No Child Left Behind An Existential Psychoanalytic Anthropology of Urban Schooling asks two fundamental questions Who do students become as a result of inhabiting impoverished urban schools for eight hours a day five days a week over the course of several years What happens to the hearts minds and spirits of these children Using nine months of field observation and interviews with students teachers and administrators at a New York City middle school The Academy pseudonym the book offers an in depth analysis of students psychological and emotional experiences of the Title I school environment Ultimately the book demonstrates how the children s experiences become a part of a vicious chain of events The history of racial segregation guarantees inferior schooling conditions and as a result the students perform poorly the school closes gentrification efforts accelerate these closings and ultimately the school s community dies a whisper less death Propelling the study is a new anthropological theory of human consciousness By synthesizing the insights of Sartre Africana existentialists phenomenologists and sociocultural anthropologists Parker offers a preliminary outline for a theory that he names existential psychoanalytic anthropology Based on Sartre s existential psychoanalysis which asserts that we choose who we are from a field of possible beings that we encounter in our cultural environment existential psychoanalytic anthropology studies the complex ways that culture and consciousness work together to form an individual being

An Age of Accountability John L. Rury, 2023-10-13 *An Age of Accountability* highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

Stealing You Blind Iain Murray, 2011-07-11 Argues that the United States government is cheating its own people

The Death and Life of the Great American School System Diane Ravitch, 2010-03-02 Discusses how school choice misapplied standards of accountability the No Child Left Behind mandate and the use of a corporate model have all led to a decline in public education and presents arguments for a return to strong neighborhood schools and quality teaching

Failure Vicki E. Alger, 2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue Education policy expert Vicki E Alger remedies this deficiency with her book *Failure The Federal Miseducation of America s Children* As its title indicates *Failure* makes no effort to sugar coat its findings Created in 1979 after a lobbying campaign that spanned generations the Department of Education has failed to live up to its promises Federal involvement whether

related to testing funding or academic curricula has failed to abide by the Constitution's implication that education must remain the domain only of state and local governments and private institutions. Most of all, the central government's pervasive meddling in education has failed America's school children and their parents. Education policy has long been mired in controversies, often with opposing sides missing the mark. *Failure* helps us step back from the skirmish du jour and redirects our focus to the big picture, showing us what's gone wrong over the decades and the institutional causes of these failures. It also offers a bold blueprint for returning the federal government to its constitutional role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats. Concerned citizens of every stripe will benefit from *Failure's* history of federal education policy, its brutally honest report card for the Department of Education, its look at education systems across the globe, and its ambitious policy recommendations. *Failure* might even succeed in reframing the way the federal education establishment thinks about education policy.

No Child Left Behind and other Federal Programs for Urban School Districts Frank Brown, Richard C. Hunter, 2006-07-04 The No Child Left Behind (NCLB) Act is designed to close the achievement gap between disadvantaged and advantaged children through its Title I program. This book explores models to achieve equity in Title I schools and defines what is required of states in Title I schools. It examines how each state implements NCLB accountability standards.

No Remedy Left Behind Frederick M. Hess, Chester E. Finn (Jr.), 2007 This book is a sobering and important look at the nation's basic federal education law governing K-12 schools.
