Analytical Philosophy of Action Arthur C. Danto, 1973-08-23. A study of the philosophical problems associated with the concept of action. Professor Danto is concerned to isolate logically the notion of a basic action and to examine the way in which context and intention, for example, can convert physiological movements into significant actions. He finds many suggestive parallels between the concepts, the logical architecture of action and cognition, and in developing this theme he becomes involved in and proposes new approaches to various long-standing problems connected with causality, determinism, and materialism. As in his earlier books *Analytical Philosophy of History* and *Analytical Philosophy of Knowledge*, Professor Danto places the discussion in a broad historical and philosophical perspective and brings to it a wide reading and an unusual range of interests. He is always prepared to venture novel ideas to stimulate further debate and research, and the book as a whole is presented as an original contribution to a subject which is attracting increasing attention from philosophers and from psychologists with an interest in the conceptual assumptions behind their work.

Righting the Longstreet Record at Gettysburg Cory M. Pfarr, 2023-05-26. Following up on the award-winning *Longstreet at Gettysburg*, this collection of new essays addresses some of the persistent questions regarding Confederate General James Longstreet's performance at the Battle of Gettysburg. Influential interpretations of his actions are evaluated for historical accuracy, drawing on often overlooked primary source material. Points of contention about Longstreet's July 2, 1863 attack are examined along with the roots of the Longstreet-Gettysburg Controversy and the merits of Helen Longstreet's early 20th-century attempt to address it.
