

Nonfiction Oral Fluency: Cavities

Teacher Guidance

These fluency passages can be used to assess your students' accuracy when reading aloud. Each passage has a checklist and fluency rubric to help you measure how well they read, after identifying and practicing the elements you can practice them for early targets. They can also be shared in small groups when assessing accuracy during guided reading activities. They can be used to reading materials in the primary grades.

This work provides the opportunity to assess students' oral reading fluency. The checklist can be shared with your students to read with growing evidence of improvement.

Suggested Procedure

1. Provide your student with a copy of the text.
2. Print out the checklist to read beside your student as they read.
3. Read a paragraph to demonstrate how the student reads the passage.
4. Have the student repeat what is read for them.
5. As the student is reading, follow them with the checklist, marking when the words are sounded out and checked the correct ones. If words or whole passages are omitted, note them.
6. Look for substitutions, omissions, or mispronunciations. Give the student time to make corrections.
7. If the passage gets too complicated, mark when they stopped and how they read that part.
8. Also, you may want them to play back for them. This helps to compare what you hear on the checklist and what the student says or shows that may have been used for words or words that are unfamiliar to them.
9. When the student has finished the passage, read them. This is a way to let them know you should support them when they read.
10. An accuracy rating scale can be used for expression, tone, and when they develop to reading.
