Planning Ideas That Matter:

Planning Ideas That Matter Bishwapriya Sanyal, Lawrence J. Vale, Christina D. Rosan, 2012-07 Over the past hundred years of urbanization and suburbanization four key themes have shaped urban and regional planning in both theory and practice livability territoriality governance and reflective professional practice *Planning Ideas That Matter* charts the trajectories of these powerful planning ideas in an increasingly interconnected world The contributors leading theorists and practitioners discuss livability in terms of such issues as urban density land use and the relationship between the built environment and natural systems examine levels of territorial organization drawing on literature on regionalism metropolitanism and territorial competition describe the ways planning connects to policy making and implementation in a variety of political contexts and consider how planners conceive of their work and learn from practice Throughout the emphasis is on how individuals and institutions including government business professional organizations and universities have framed planning problems and ideas The focus is less on techniques and programs than on the underlying concepts that have animated professional discourse over the years The book is recommended for classroom use as a reference for scholars and practitioners and as a history of planning for those interested in the development of the field The hardcover edition does not include a dust jacket

When Ideas Matter Bilal A. Baloch, 2021-10-07 Comparativist scholarship conventionally gives unbridled primacy to external material interests chiefly votes and rents as proximately shaping political behaviour These logics tend to explicate elite decision making around elections and pork barrel politics but fall short in explaining political conduct during

credibility crises such as democratic governments facing anti corruption movements In these instances Baloch shows elite ideas for example concepts of the nation or technical diagnoses of socioeconomic development dominate policymaking Scholars leverage these arguments in the fields of international relations American politics and the political economy of development But an account of ideas activating or constraining executive action in developing democracies where material pressures are high is found wanting Resting on fresh archival research and over 120 original elite interviews When Ideas Matter traces where ideas come from how they are chosen and when they are most salient for explaining political behaviour in India and similar contexts *Whose Ideas Matter?* Amitav Acharya,2011 Whose Ideas Matter is the first book to explore the diffusion of ideas and norms in the international system from the perspective of local actors with Asian regional institutions as its main focus **Planning Matter** Robert A. Beauregard,2015-11-03 City and regional planners talk constantly about the things of the world from highway interchanges and retention ponds to zoning documents and conference rooms yet most seem to have a poor understanding of the materiality of the world in which they re immersed Too often planners treat built forms weather patterns plants animals or regulatory technologies as passively awaiting commands rather than actively involved in the workings of cities and regions In the ambitious and provocative Planning Matter Robert A Beauregard sets out to offer a new materialist perspective on planning practice that reveals the many ways in which the nonhuman things of the world mediate what planners say and do Drawing on actor network theory and science and technology studies Beauregard lays out a framework that acknowledges the inevitable insufficiency of our representations of reality while also engaging more holistically with the world in all of its diversity including human and nonhuman actors alike

Urban Policy in the Time of Obama James DeFilippis, 2016-11-08 With his background as a community organizer and as a state legislator representing Chicago's South Side Barack Obama became America's most urban president since Teddy Roosevelt But what has been his record in dealing with the issues most impacting our metropolitan areas today Looking past the current administration what are the future prospects of the nation's cities and how have they been shaped by our policies in this century Seeking to answer these questions the contributors to Urban Policy in the Time of Obama explore a broad range of policy arenas that shape both directly and indirectly metropolitan areas and urbanization processes This volume reveals the Obama administration's surprisingly limited impact on cities through direct policy initiatives such as Strong Cities Strong Communities Promise Neighborhoods and Choice Neighborhood Initiatives There has been greater impact with broader policies that shape urban life and governance including immigration reform education and health care Closing with Cedric Johnson's afterword illuminating the Black Lives Matter movement and what its broader social context says about city governance in our times Urban Policy in the Time of Obama finds that most of the dominant policies and policy regimes of recent years have fallen short of easing the ills of America's cities and calls for a more equitable and just urban policy regime Contributors Rachel G Bratt Tufts University Christine Thurlow Brenner University of Massachusetts Boston Karen Chapple University of California Berkeley James Fraser Vanderbilt University Edward G Goetz University of Minnesota Dan Immergluck Georgia Tech Amy T Khare University of Chicago Robert W Lake Rutgers University Pauline Lipman University of Illinois at Chicago Lorraine C Minnite Rutgers University Camden Kathe Newman Rutgers University Deirdre Oakley Georgia State Frances Fox Piven City University of New York Hilary Silver Brown University Janet Smith University of Illinois at Chicago Preston H Smith II Mount Holyoke College Todd Swanstrom University of Missouri St Louis Nik Theodore University of Illinois at Chicago J Phillip Thompson MIT
