Unit 1 & 2

1. THE ECONOMY

- **Economics**: is the study of the production and distribution of goods and services which are necessary in order to satisfy human needs.
- **Raw materials**: resources taken from nature which are used or transformed to satisfy our needs
- **Quaternary sector**: is a sector that includes services related to finance, information technology, telecommunications, research and development of new products and management.
- **GDP**: (Gross Domestic Product) is the total money value of all the goods and services produced in a country over a period of time.
- **Balance payments**: is the difference between the value of a country's imports and exports.
- **The law of supply and demand**: is the basic principle on which a market economy is based. It reflects the relationship between the demand for a product and the quantity of that product offered.
- **Offshoring**: is when companies leave developed countries and relocate part of their operations to developing countries.
- **Trade bloc**: agreement between countries to reduce or eliminate barriers to trade.
- **Types of economics**: There are two main economic systems. The first one is planned or command economy which consists of the state making the economic decisions and owning the capital necessary for production. This includes the land, raw materials energy sources and more. The second one is free market or capitalist economy. This means that private companies decide what to produce, how much to produce and the prices, and
