Sociologie Et Religions Liliane Voyé, Jaak Billiet, 1999 What are the relations between sociology and the different religions Christianity with its various branches Judaism Islam Oriental religions sects and New Religious Movements That is the question which this work conceived on the occasion of the XXVth Conference of the International Society for the Sociology of Religion Sociéte Internationale de Sociologie des Religions SISR wishes to clarify The book retraces the varied and troubled history of these relations and also reveals how in opening up its research to other religions besides the Christian sociology is forced to redefine the very object of its field of study What is the religious This question which until recently was considered impertinent informs this book throughout It confronts the necessity of rethinking theories and methodological approaches which constructed in the context of 19th and early 20th century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

Religion in History / La religion dans l'histoire Michel Despland, Gérard Vallée, 1992-03-03 The history of the concept of religion in Western tradition has intrigued scholars for years This important collection of eighteen essays brings further light to the ongoing debate Three of the invited participants W C Smith M Despland and E Feil have each previously written impressive books treating this subject the last two acknowledged the impact and continuing influence of Smith's work The Meaning and End of Religion An introduction and a recapitulation of Smith's contribution as a scholar set the stage for a retrospective look at the published literature Contributors then examine the transformation of words the classical religio to the modern religion particularities of religion in nineteenth century France Troeltsch's concept of religion the study of religion from an Asian point of view and the categorization of World Religions The concluding essays elaborate contemporary anthropological cross disciplinary semiological deconstructive and psychoanalytical methodological approaches to the concept and study of religion Exploring critically different aspects of the concept and study of religion these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies Of interest to scholars and students alike this collection also

contains a complete bibliography of W C Smith s publications Religion, Colonization and Decolonization in Congo, 1885-1960. Religion, colonisation et décolonisation au Congo, 1885-1960 Vincent Viaene, Bram Cleys, Jan De Maeyer, 2020-10-30 Religion in today s Democratic Republic of Congo has many faces from the overflowing seminaries and Marian shrines of the Catholic Church to the Islamic brotherhoods from the healers of Kimban guism to the televangelism of the booming Pentecostalist churches in the great cities from the Orthodox communities of Kasai to the invisible Mai Mai warriors in the brousse of Kivu During the colonial period religion was no less central to people s lives than it is today More surprisingly behind the seemingly smooth facade of missions linked closely to imperial power faith and worship were already marked by diversity and dynamism tying the Congo into broader African and global movements The contributions in this book provide insight into the multifaceted history of the interaction between religion and colonization The authors outline the institutional political framework and focus on the challenge that old and new forms of slavery entailed for the missions The atrocities committed at the time of the Congo Free State became an existential question for young Christian communities In the Belgian Congo after 1908 more structural forms of colonial violence remained a key issue marking religious experiences And yet religion also acted as a bridge The authors emphasize the role intermediaries such as catechists or medical assistants played in the African appropriation of Christianity They examine the complex interaction with indigenous religious beliefs and practices and zoom in on the part religions played in the independence movement as well as on their reaction to independence itself Coming at a moment when Belgium confronts its colonial past this volume provides a timely reassessment of religion as a key factor *Histoire des religions* Réville, 1883 **Potential Theory - ICPT 94** Josef Kral, Jaroslav Lukes, Ivan Netuka, Jiri Vesely, 2011-10-13 No detailed description available for Potential Theory ICPT 94

The Study of Religion Under the Impact of Fascism Horst Junginger, 2008 Addressing the European study of religion in the interwar period these proceedings tackle one of the most problematic epochs of its history The commonplace that understanding the present requires learning from the past is particularly true as this case well illustrates **Islam and Public Controversy in Europe** Professor Nilüfer Göle, 2014-01-09 Developing an innovative conceptual framework and elaborating the notion of controversy as a methodological tool Islam and Public Controversy in Europe draws our attention to the processes of interaction confrontation and mutual transformation thereby opening up a new horizon for rethinking difference and pluralism in Europe As such it will appeal to scholars across the social sciences with interests in religion integration cultural difference and the public sphere *Revue des religions* , 1890 Dialogues contre la pluralité des religions, et de l'athéisme ... sur la fin est adjointe ... un dialogue, contre l'avarice de ce dernier siècle de fer Laurent POLLOT, 1595 La théologie et le temps présent Eugène Michaud, 1893 **Brokenness and Reconciliation** Christian Danz, Marc Dumas, Werner Schüßler, Bryan Wagoner, 2020-09-07 Too often we see reality in black and white overlooking nuances that require the discernment of tensions between the brokenness of our world and our desires for reconciliation Yet

the gap between wounding words and actions and the hope for acts of reconciliation can lead to even more violence and despair The authors of this volume explore these tensions and the valences of brokenness and reconciliation in Paul Tillich's thought Together they contribute to a richer understanding of the thought of the German American theologian and philosopher his commitments and the constructive interpretations his work can induce for us today Think of the ruptures and efforts of dialogue among divided Christian churches or the commitment of the social worker reflect on how love as *agape* or the courage to be can be at the heart of this constructive work or consider the reconciliation processes of peoples torn apart by violence to mention a few contributions from this volume Collectively these contributions raise the hope of a Tillichian creative justice a hope that can stimulate a broad audience to go beyond the superficiality and instantaneity of social media to something deeper more enduring and transformative

Revue de l'histoire des religions, 1886 **Le Concept théologique de la postmodernité** Blaise Katikishi Muzembe, 2012-02-27 L'on devrait commencer par reconnaître que appels surmonter le défi de la postmodernité le christianisme et la théologie traversent aujourd'hui une situation de dure preuve ils sont comme provoqués à requalifier le protocole de leurs discours et le contenu de leurs cahiers de charges Et dans cette tâche ils prennent conscience que les réponses classiques sont devenues fort étroites et manifestement insuffisantes face la question sociale et la question sexuelle surtout dans ses nouvelles formes d'expression au problème de la préservation de l'environnement et celui relatif la nouvelle orientation des droits humains selon l'ordre de la justice internationale Ce livre définit les bases théologiques d'une nouvelle re-spirituelle et religieuse d'après une tude poussée du concept de postmodernité dans la société mondiale actuelle Son mérite est de démontrer que dans sa confrontation avec les pistologies de la re-postmoderne l'herméneutique théologique peut se circonscrire un ordre nouveau de ses tâches essentielles en s'inscrivant dans la perspective d'une pistologie large large et allée aux questions que soulève la nouvelle structuration de notre insertion l'histoire L'auteur se livre ici une tude argumentée d'excellente facture mettre entre des mains expertes du sujet Un travail colossal clair et abondamment documenté

Suggestion, hypnotisme, religions, ou, Éléments de la solution de la question sociale Jules Vindevogel (docteur), 1898 *Le programme d'éthique et culture religieuse* Solange Lefebvre, Mireille Estivalèzes, 2012-07-13 T00:00:00-04:00 Le programme d'éthique et culture religieuse ECR implant dans les coles du Québec en septembre 2008 s'inscrit la fois dans le processus de déconfessionnalisation de l'école québécoise et dans un contexte de pluralisation culturelle et religieuse croissante de la société ce qui ne va pas sans susciter de vifs débats politiques juridiques sociaux et médiatiques sur la gestion de cette diversité C'est par les uns mais considéré comme trop religieux pour certains pas assez pour d'autres ou trop multireligieux pour d'autres encore le programme ECR devient parfois le bouc émissaire de questionnements profonds sur l'identité religieuse et politique du Québec Dans ce contexte il est fort utile d'apporter des éléments d'analyse informés sur les origines le contenu et les finalités du programme d'éthique et culture religieuse C'est le but que s'est donné cet ouvrage en proposant une réflexion rétrospective sur le contexte sociohistorique qui a mené

nouveau cours mais aussi sur les changements de paradigmes politiques sociaux culturels religieux et éducatifs dont il témoigne. En faisant appel à l'expertise de spécialistes philosophes sociologues théologiens juristes historiens et éducateurs ce livre permet de mieux comprendre comment le programme d'éthique et culture religieuse entend relever le défi essentiel qui est désormais celui de toute société démocratique : la conciliation entre le soi-même et le nous. La mise en perspective du modèle québécois avec d'autres expériences nationales d'enseignement sur les religions locales permet d'apprécier combien le choix québécois qui suscite beaucoup d'intérêt dans plusieurs pays est à la fois ambitieux et original. Ce livre vise à nourrir la réflexion sur le programme d'éthique et culture religieuse lui-même mais se veut aussi une contribution aux débats sur des questions de société aussi essentielles que les modèles de gestion politique et éducative de la diversité religieuse, les notions de neutralité de la cité et de sécularité ainsi que les valeurs culturelles que doit privilégier le Québec.

République et religions Guy Lefrançois, Charles Dessemaume, 2019-04-25

Ensemble faire société. Tout citoyen français est un et indivisible. Le vœu que lui suggère sa foi est-il compatible avec le vœu que lui propose la République ? Dans un contexte où la laïcité est sans cesse redéfinie et le vivre ensemble sans cesse questionné, cet ouvrage confronte les valeurs des trois religions abrahamiques : judaïsme, christianisme, islam avec celles de la République. Pour ce faire, il propose une étude comparative rigoureuse et scientifique qui s'appuie sur les textes fondateurs et qui dégage des points de convergence. Documentaire et constructive, cette approche est une invitation concrète à faire société autour de 18 valeurs. Avec la contribution de Claude Sultan, Jean Charles Descubes, Tarik Abou Nour, Abderrahman Belmadi et François Clavairoly.
