

MEETING REQUEST EMAIL TO CLIENT (SAMPLE)

*Clients are tricky, and as such the best way to go about an email in this category is to be concise and straight to the point, stating the purpose of the meeting and how it can benefit the client, also adding contact information in closing the email. It is important not to force a client to wade through unnecessary information that they may not even be patient enough to read through.

(Take note that meetings with clients should not be requested on first contact).

Proceedings of the Board of Supervisors of Waupaca County ... Waupaca County (Wis.). Board of Supervisors,1878

Coordination Theory and Collaboration Technology Gary M. Olson,Thomas W. Malone,John B. Smith,2013-05-13 The National Science Foundation funded the first Coordination Theory and Collaboration Technology initiative to look at systems

that support collaborations in business and elsewhere This book explores the global revolution in human interconnectedness It will discuss the various collaborative workgroups and their use in technology The initiative focuses on processes of coordination and cooperation among autonomous units in human systems in computer and communication systems and in hybrid organizations of both systems This initiative is motivated by three scientific issues which have been the focus of separate research efforts but which may benefit from collaborative research The first is the effort to discover the principles underlying how people collaborate and coordinate work efficiently and productively in environments characterized by a high degree of decentralized computation and decision making The second is to gain a better fundamental understanding of the structure and outputs of organizations industries and markets which incorporate sophisticated decentralized information and communications technology as an important component of their operations The third is to understand problems of coordination in decentralized or open computer systems
