### Investment in the Future

- [illegible]

**Abstract**—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 10-week training program consisting of three sessions per week of aerobic exercise. The HR and EE were measured at baseline and at the end of the 10-week training program. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 10-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial light or natural light sources. To avoid this, there are two things the producer should be aware of: the time of the event.
- For most events, the time will comply with the set of rules that state the requirements, the length of the event may vary depending on the set and event requirements.
- The set and event requirements may vary, but they should be the same for all events. The producer should be aware of the event's requirements and should be able to provide the event's requirements.
- The event's requirements should be the same for all events. The event's requirements should be the same for all events.

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the correct installation instructions. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. For example, suppose the price for the output rises. The producer will want to produce more of the output, and this will require hiring more workers. The producer will also want to use more of the other inputs, and this will require hiring more of those inputs. The producer will also want to use more of the other inputs, and this will require hiring more of those inputs.
