Evangelist Marketing Alex L. Goldfayn, 2012-01-03 In *Evangelist Marketing*, Alex Goldfayn argues that technology companies succeed in spite of their marketing, not because of it. He says that if consumer tech makers ceased all marketing activity today, they would not see a significant decline in sales. In this book, Alex presents why the current state of overly technical, features-oriented tech marketing, branding, communications, and public relations is costing the industry billions of dollars in easy money that's voluntarily being left on the table. Then he lays out a step-by-step system for creating intensely loyal brand evangelists based on deep consumer insights and simple emotional language. *Evangelist Marketing* is written for consumer tech companies, big and small, from PC manufacturers to Web-based services. It's also sure to improve the work of their marketing and public relations agencies.

Beyond 3D TV Tony Sperry, *Leading with IT* Alex Siow, 2021-01-26 Explore the insights of a world-leading CIO as he expounds on the challenges faced by technology executives and how to overcome them. As the pace of change in business continues to rapidly accelerate, Chief Information Officers and Chief Technology Officers are often left with accountability for future-proofing their organizations. Renowned professor, executive, and author Alex Siow shows you how you can meet that challenge while managing the information overload that often accompanies these positions. In *Leading with IT: Lessons from Singapore's First CIO*, the author uses his expansive and impressive experience in academia and industry to lead you down a path to achieving success as a CIO or CTO. Filled with practical tips, case studies, and personal insights, the book discusses the management of legacy information and telecommunications technology, the information overload often suffered by technology executives, how to motivate and mentor a workforce, how to manage change effectively, the fostering of innovation, the future of money, work, and artificial intelligence. Perfect for CIOs, CTOs, and the executives, managers, and employees who work with and for them, *Leading with IT* delivers an engaging and insightful exploration of what it takes to achieve astounding results at the intersection of technology and business.
