Reimagining Citizenship in Postwar Europe Rachel Chin,Samuel Clowes Huneke,2025-02-15 Reimagining Citizenship in Postwar Europe maps the generation and growth of novel forms of belonging in the years after World War II crisscrossing the continent from Madrid to Warsaw and from Athens to London Even as Europe struggled to rebuild new forms of identity statehood and citizenship were beginning to take shape Rachel Chin and Samuel Clowes Huneke bring together a diverse group of scholars to illustrate how citizenship was reimagined in the postwar decades in unusual settings and unexpected ways while highlighting how ordinary citizens living in democratic and authoritarian regimes alike struggled to forge new kinds of belonging through which to assert their human rights and dignity Ultimately Reimagining Citizenship in Postwar Europe contends that if we are to grapple with fraying citizenship in the twenty first century we must first look to when how and why citizenship originated in the calamitous years after World War II

The Yearbook of the European Convention on Human Rights, edited by staff of the Council of Europe, is an indispensable record of the development and impact of the world's oldest binding international human rights treaty. It reviews the implementation of the Convention both by the European Court of Human Rights and in national legislation and practice. Full listing of Court judgments, judgments broken down by subject matter and extensive summaries of key judgments handed down by the Court during the year. Selected human rights DH resolutions adopted as part of the Committee of Ministers' work supervising the execution of the Court's judgments. Enquiries by the Secretary General carried out under Article 52 of the Convention. Other work of the Council of Europe connected with the European Convention on Human Rights carried out by the Committee of Ministers, the Parliamentary Assembly and the Directorate General of Human Rights. Enjeux et implications sociodémographiques* Godelieve Masuy-Stroobant, 2012-04. En 2003, peu avant l'élargissement de 2004 qui a porté la population de l'UE à plus de 450 millions d'habitants, les démographes de Louvain ont tenté une réflexion sur les conséquences de cet élargissement sur le comportement démographique des Européens.

Documents (working Papers) 1993 = Documents de Séance 1993 ; Volume X, Docs. 6847 - 6864. Council of Europe, 1993-12-01. Parallel main title: Documents de séance. Parallel text in English and French. *The European Constitution* Giuliano Amato, 2009-01-01. I can enthusiastically recommend and endorse this book. It serves the very important purpose of collecting key documents together in an elegant and accessible text. There currently exists a huge proliferation of material on the EU Constitution; this volume makes a very wise selection of this profusion, compiling it into a manageable and informative whole. Nine chapters deal with the most significant matters concerning the Constitution. A short but well-written introduction at the start of each chapter precedes following extracts. Part of the value of this book lies in the fact that it includes translations of some important documents which are difficult or impossible to access in English, for example recent decisions of national courts concerning the European Arrest Warrant. All in all, this work is a comprehensive but not overwhelmingly large collection of materials on the EU Constitution and it will prove extremely valuable to all those working within this area of law. By presenting the Constitution, the background to the Constitution and the issues it deals with in this clear and informative way, it will shed new light upon and help all of us to form our own judgements on the EU Constitution.

and its importance to our lives Sionaidh Douglas Scott King's College London UK Whatever the ultimate fate of the EU's Constitutional Treaty both the events which led to its conclusion and those which occurred afterwards during its ill-fated ratification process have profoundly shaped the future of the European Union as a constitutional project This collection of materials offers an invaluable set of resources for understanding these events in their widest legal and political context The text will be useful to all those who seek to understand both why the EU has reached such a turning point and where it might go in the future Jo Shaw Edinburgh Law School UK This book offers a selection of materials that enable a better understanding of some of the most important changes that would be introduced by the Treaty establishing a Constitution for Europe in the EU legal and political system It also helps to assess the need for the reforms embedded in the Constitutional Treaty as well as the quality of the formulations agreed upon by the signatory Member States The book includes excerpts of the European Convention's work selected statutory and constitutional provisions of the Member States and also related passages from pertinent court decisions from both European courts as well as Member States constitutional courts Institutional and doctrinal analyses and relevant excerpts from the Constitutional Treaty itself are also included Many of these documents directly relate to the provisions of the Constitutional Treaty while the others although not directly related are nevertheless relevant to the debate surrounding it The European Constitution by two of the best experts on the Constitution for Europe will be of great interest to researchers and teachers in the fields of European Law and European politics and also to policy makers in European affairs
