Parasites Like Us:

Parasites Like Us Adam Johnson, 2004-10-26 The debut novel by the author of *The Orphan Master's Son* winner of the 2013 Pulitzer Prize and the story collection *Fortune Smiles* winner of the 2015 National Book Award Hailed as remarkable by the *New Yorker* Emporium earned Adam Johnson comparisons to Kurt Vonnegut and T C Boyle In his acclaimed first novel *Parasites Like Us* Johnson takes us on an enthralling journey through memory time and the cost of mankind's quest for its own past Anthropologist Hank Hannah has just illegally exhumed an ancient American burial site and winds up in jail But the law will soon be the least of his worries For buried beside the bones a timeless menace awaits that will set the modern world back twelve thousand years and send Hannah on a quest to save that which is dearest to him A brilliantly evocative apocalyptic adventure told with Adam Johnson's distinctive dark humor *Parasites Like Us* is a thrilling tale of mankind on the brink of extinction

Deadly Parasites Winston Cellini, AI, 2025-02-12 *Deadly Parasites* explores the fascinating and often unsettling world of parasitism highlighting the diverse strategies these organisms use to survive and thrive within their hosts Ranging from microscopic protozoa to visible worms parasites exploit a variety of hosts impacting individual health and broader ecological systems One intriguing aspect is the manipulation of host behavior where parasites subtly alter their host's actions to enhance their own transmission The book begins by establishing the fundamental biology of parasitism defining different types of parasitic relationships and infection mechanisms It progresses into specific examples of parasitic diseases like malaria and schistosomiasis detailing their effects and the evolutionary arms race between parasites and their hosts Drawing from microbiology zoology and evolutionary biology the book presents scientific findings supporting the understanding of infectious diseases This exploration is valuable because it connects diverse scientific fields including medicine ecology and veterinary science offering insights into disease prevention treatment and public health Understanding the complexity of parasites is crucial for addressing global health challenges and developing effective control measures The book adopts a fact-based approach providing a solid foundation for further study in parasitology and related disciplines

Everyday Ecofascism Alexander Menrisky, 2025-05-06 A timely look into how fascist ideas permeate contemporary culture well beyond the far right As challenges posed by climate change have intensified in the twenty-first century right-wing figures in the United States and abroad have increasingly framed anti-immigrant anti-Indigenous and white supremacist sentiments in terms of environmental survival *Everyday Ecofascism* explores the insidious nature of this tendency revealing how permutations of these perspectives in fact resonate across the political spectrum Drawing on comparative studies of fascism writ large Alexander Menrisky demonstrates that ecofascism is best understood not as a uniquely right-wing ideology but as a political genre that reinforces white supremacy and other forms of domination Presenting a view of fascism as a complex power network that plays out on scales both large and small Menrisky shows how extremist sentiments have crept into everyday language stories and ideas Through a literary and cultural studies lens he illuminates ecofascism's narrative

patterns and their easy permeation of environmentalist discourses from back to the land movements to the resurgence of psychedelic drugs food localism and pandemic politics Opposite his analysis of ecofascism in action Menrisky sheds important light on narrative resistances to dominant conceptions of race nation and territory by Native queer and women of color writers who have countered ethnonationalism for generations Bridging past and present Menrisky powerfully nails down the emergent concept of ecofascism and forms a basis for understanding phenomena like Covid 19 ecological utopianism and psychedelic environmentalism that detangles ecofascist tendencies from justice oriented visions of place based belonging Retail e book files for this title are screen reader friendly

Parasite Rex Carl Zimmer,2001-11-09
 IMAGINE A WORLD WHERE parasites control the minds of their hosts sending them to their destruction IMAGINE A WORLD WHERE parasites are masters of chemical warfare and camouflage able to cloak themselves with their hosts own molecules IMAGINE A WORLD WHERE parasites steer the course of evolution where the majority of species are parasites WELCOME TO EARTH For centuries parasites have lived in nightmares horror stories and in the darkest shadows of science Yet these creatures are among the world s most successful and sophisticated organisms In Parasite Rex Carl Zimmer deftly balances the scientific and the disgusting as he takes readers on a fantastic voyage Traveling from the steamy jungles of Costa Rica to the fetid parasite haven of southern Sudan Zimmer graphically brings to life how parasites can change DNA rewire the brain make men more distrustful and women more outgoing and turn hosts into the living dead This thorough gracefully written book brings parasites out into the open and uncovers what they can teach us about the most fundamental survival tactics in the universe

Parasites, People, and Places Gerald W. Esch,2004-02-12 A fascinating collection of essays on field parasitology describing scientists the organisms they work on and the places where they occur

[Situating Sustainability](#) C. Parker Krieg,Reetta Toivanen,2021-11-22 Situating Sustainability reframes our understanding of sustainability through an emerging international terrain of concepts and case studies These approaches include material practices such as extraction and disaster recovery and extend into the domains of human rights and education This volume addresses the need in sustainability science to recognize the deep and diverse cultural histories that define environmental politics It brings together scholars from cultural studies anthropology literature law behavioral science urban studies design and development to argue that it is no longer possible to talk about sustainability in general without thinking through the contexts of research and action These contributors are joined by artists whose public facing work provides a mobile platform to conduct research at the edges of performance knowledge production and socio ecological infrastructures Situating Sustainability calls for a truly transdisciplinary research that is guided by the humanities and social sciences in collaboration with local actors informed by histories of place Designed for students scholars and interested readers the volume introduces the conceptual practices that inform the leading edge of engaged research in sustainability

A Pocket Guide to Pigeon Watching Rosemary Mosco,2021-10-26 Part field guide part history part ornithology primer and altogether fun Fact Pigeons are

amazing and until recently humans adored them We've kept them as pets held pigeon beauty contests raced them used them to carry messages over battlefields harvested their poop to fertilize our crops and cooked them in gourmet dishes Now with The Pocket Guide to Pigeon Watching readers can rediscover the wonder Equal parts illustrated field guide and quirky history it covers behavior Why they coo how they flock how they preen kiss and mate monogamously and how they raise their young on chunky pigeon milk Anatomy and identification from Birmingham Roller to the American Giant Runt to the Scandaroon Birder issues like what to do if you find a baby pigeon stranded in the park And our lively shared story together including all the things we've taught them Ping Pong for example Rats with wings Think again Pigeons coo peck and nest all over the world yet most of us treat them with indifference or disdain So Rosemary Mosco a bird lover science communicator writer and cartoonist and co author of The Atlas Obscura Explorer's Guide for the World's Most Adventurous Kid is here to give the pigeon's image a makeover and to help every town and city dweller get closer to nature by discovering the joys of birding through pigeon watching

Pests Ross Piper, 2011-03-03 This single volume describes the animals that are most injurious and costly to humans examining the important roles of these pests throughout history and the implications of the never ending wars we wage against the natural world From mosquitoes to nematodes to mice there are a multitude of organisms and animals that pose major health risks cause economic burdens and even threaten famine conditions for human civilization Addressing these problems is often extremely costly and only partially effective Pests A Guide to the World's Most Maligned Yet Misunderstood Creatures presents an overview of the animals that have the greatest impact on our lives from the creatures that eat our crops through the ones that invade our homes and those that transmit diseases Each entry provides a brief history of our interactions with the specific pest methods of management or eradication for the pest being discussed and an extensive Further Reading list that includes resources on both the biology of the pest and methods of control The author explains the complexity of the worldwide pest problem and demonstrates how some of these issues are a result of human over population and shortsightedness inviting readers to consider our place in nature and how other animals have adapted to and benefited from the growing human population

The Story Prize Larry Dark, 2019-03-05 You don't often get collections or even anthologies where every story knocks you out but I've been bewildered in the best way over each one in The Story Prize so far Lillian Li author of Number One Chinese Restaurant This anthology of short stories marks the fifteenth anniversary of The Story Prize and includes one story from each of the annual winning collections beginning with Edwidge Danticat's The Dew Breaker and concluding with Elizabeth Strout's Anything Is Possible The founder of The Story Prize Julie Lindsey and its director Larry Dark created this award to address the lack of one specifically for collections of stories Together they choose three finalists from the previous year's publications which are sent to three judges an author a bookseller or librarian and a critic or editor who independently of one another relay their choices The prize is then presented at an annual celebration in New York where the finalists read from their books and then discuss their work with

Dark Excerpts from these interviews or in a few cases the judges citations introduce each story in the book The authors chose the stories included to read at the annual Story Prize event The Corvette in Literature and Culture Jerry W. Passon,2011-11-08 As the original American sports car the Chevrolet Corvette has come to represent power freedom and sexuality for more than half a century Yet it also hints at personal identity and style suggesting how effectively values and meaning are communicated through an object Using various critical perspectives this close analysis of this highly recognizable automobile finds diverse aspects of American culture revealed Topics covered include the Corvette in literature its ties to masculine identity including homosexuality as well as female sexuality and the Corvette as artistic object among others
