Bailey, 2020-06-15 Focusing on the period between the revolutions of 1848 1849 and the First Vatican Council 1869 1870 The Public Image of Eastern Orthodoxy explores the circumstances under which westerners concerned about the fate of the papacy the Ottoman Empire Poland and Russian imperial power began to conflate the Russian Orthodox Church with the state and to portray the Church as the political tool of despotic tsars As Heather L Bailey demonstrates in response to this reductionist view Russian Orthodox publicists launched a public relations campaign in the West especially in France in the 1850s and 1860s The linchpin of their campaign was the building of the impressive Saint Alexander Nevsky Church in Paris consecrated in 1861 Bailey posits that as the embodiment of the belief that Russia had a great historical purpose inextricably tied to Orthodoxy the Paris church both reflected and contributed to the rise of religious nationalism in Russia that followed the Crimean War At the same time the confrontation with westerners negative ideas about the Eastern Church fueled a reformist spirit in Russia while contributing to a better understanding of Eastern Orthodoxy in the West **The Catholicisms of Coutances** Michael Hayden, 2013-04-18 How religious belief and practice shaped daily life in early modern France *Supplement to the Universal Catalogue of Books on Art* National Art Library (Great Britain), Great Britain. Department of Science and Art, 1877 Catalogue of the Library of the Boston Athenaeum ,1874 **Le Guide Musical** ,1883 The Foreign Quarterly Review ,1842 **Heresy, Crusade and Inquisition in Medieval Quercy** Claire Taylor, 2011 Investigation of the development of the Cathar heresy in south west France looking at how and why its growth differed across the regions The medieval county of Quercy in Languedoc lay between the Dordogne and the Toulousain in south west France it played a significant role in the history of Catharism of the Albigensian crusade launched against the heresy in 1209 and of the subsequent inquisition Although Cathars had come to dominate religious life elsewhere in Languedoc during the course of the twelfth century the chronology of heresy was different in Quercy In the late twelfth century nearby abbeys were still the main focus of devotional activity inquisitors discoveries in the 1240s point to the previous twenty years as the period when Catharism and also the Waldensian heresy took a firm hold most dramatically in its far north This study deals with the cultural and political origins of the religious change Its careful analysis offers a significant re evaluation of the nature and social significance of religious dissidence and of its protection and persecution in both the history and historiography of Catharism Dr Claire Taylor is Associate Professor School of History University of Nottingham *British Museum Catalogue of printed Books* ,1881 Servants and Masters in 18th-Century France Sarah C. Foreign Bodies Madeleine Dobie, 2001 Building on the critical

foundations established by Edward Said in *Orientalism* *Foreign Bodies* examines the relationship between the Orientalist tradition in French art and literature and France's colonial history It focuses on a central dimension of this exchange the prevalent figure of the oriental woman and the interplay of race and gender in both domestic and colonial history It also offers a genealogy of contemporary French attitudes to Islamic culture in which beliefs about sexuality and gender relations

continue to occupy a privileged place The author examines the extent to which the rhetorical status and political implications of Orientalism register the changing circumstances of French colonial activity tracing the convergence or divergence of colonial practice and the literary record She also argues against the tendency in both historical and theoretical writing on colonialism to divide center from margins metropolitan from colonial Instead she shows how colonial products and ideas permeated the domestic culture and shaped its evolution Finally the book proposes that the feminine figures of Orientalist texts are often interwoven with representations of language and more specifically with representations of language as an alien and resistant code something other than the transparent medium of ideas It suggests that in promoting awareness that language is not simply the neutral medium of thought and experience these veiled figures of language function as foreign bodies creating disruptive effects within an economy orchestrated toward the production of knowledge of the other However the book also argues against the view espoused by certain critics that the self reflexivity of Orientalist writing fully counteracts its polarizing political effects arguing instead for a process of double reading that acknowledges both the geopolitical power encoded within Orientalist representation and the ways in which specific texts resist this power **First**
