Forthcoming Books Rose Arny,1992 **Medical and Health Care Books and Serials in Print** ,1997 *Poverty, Prosperity, and Planet Report 2024* World Bank,2024-10-15 The Poverty Prosperity and Planet Report 2024 is the latest edition of the series formerly known as Poverty and Shared Prosperity The report emphasizes that reducing poverty and increasing shared prosperity must be achieved in ways that do not come at unacceptably high costs to the environment The current polycrisis where the multiple crises of slow economic growth increased fragility climate risks and heightened uncertainty have come together at the same time makes national development strategies and international cooperation difficult Offering the first post Coronavirus COVID 19 pandemic assessment of global progress on this interlinked agenda the report finds that global poverty reduction has resumed but at a pace slower than before the COVID 19 crisis Nearly 700 million people worldwide live in extreme poverty with less than US 2 15 per person per day Progress has essentially plateaued amid lower economic growth and the impacts of COVID 19 and other crises Today extreme poverty is concentrated mostly in Sub Saharan Africa and fragile settings At a higher standard more typical of upper middle income countries US 6 85 per person per day almost one half of the world is living in poverty The report also provides evidence that the number of countries that have high levels of income inequality has declined considerably during the past two decades but the pace of improvements in shared prosperity has slowed and that inequality remains high in Latin America and the Caribbean and Sub Saharan Africa Worldwide people's incomes today would need to increase fivefold on average to reach a minimum prosperity threshold of US 25 per person per day Where there has been progress in poverty reduction and shared prosperity there is evidence of an increasing ability of countries to manage natural hazards but climate risks are significantly higher in the poorest settings Nearly one in five people globally is at risk of experiencing welfare losses due to an extreme weather event from which they will struggle to recover The interconnected issues of climate change and poverty call for a united and

inclusive effort from the global community Development cooperation stakeholders from governments nongovernmental organizations and the private sector to communities and citizens acting locally in every corner of the globe hold pivotal roles in promoting fair and sustainable transitions By emphasizing strategies that yield multiple benefits and diligently monitoring and addressing trade offs we can strive toward a future that is prosperous equitable and resilient
