A Dictionary of the Church of England Edward L. Cutts, 1913 *The Anglo-Dutch Favourite* Dr David Onnekink, 2013-06-28 Hans Willem Bentinck 1st Earl of Portland 1649 1709 was the closest confidant of William III and arguably the most important politician in Williamite Britain Beginning his career in 1664 as page to William of Orange his fortunes gained momentum with the Prince s rise to power in The Netherlands and Britain emerging as William s favourite at court from the 1670s onwards Taking a broadly chronological approach the central concern of this book is not simply to provide a biographical account of Portland s life but to explore wider political themes within a European context By analysing Portland s role within William s government it shows how royal favourites could still wield considerable influence on European events and help shape royal policy particularly with regard to foreign policy By engaging with the question of why such a figure emerged this study helps illuminate the workings of William s government and the central role of his foreign entourage Drawing from archival material in England Scotland France and The Netherlands it ties the history of post Revolution Britain with political events in the Netherlands It also analyses Anglo Dutch political relations during the crucial period of the Nine Years War Britain s first major commitment to a continental war since the sixteenth century In so doing it

connects Dutch and British historiography and significantly contributes to our understanding of British politics during the 1690s both domestically and within an international context

Stalin's Defectors Mark Edele, 2017-06-23 Stalin's Defectors is the first systematic study of the phenomenon of frontline surrender to the Germans in the Soviet Union's Great Patriotic War against the Nazis in 1941-1945 No other Allied army in the Second World War had such a large share of defectors among its prisoners of war Based on a broad range of sources this volume investigates the extent the context the scenarios the reasons the aftermath and the historiography of frontline defection It shows that the most widespread sentiments animating attempts to cross the frontline was a wish to survive this war Disgruntlement with Stalin's socialism was also prevalent among those who chose to give up and hand themselves over to the enemy While politics thus played a prominent role in pushing people to commit treason few desired to fight on the side of the enemy Hence while

the phenomenon of frontline defection tells us much about the lack of popularity of Stalin's regime it does not prove that the majority of the population was ready for resistance let alone collaboration Both sides of a long standing debate between those who equate all Soviet captives with defectors and those who attempt to downplay the phenomenon then over stress their argument Instead more recent research on the moods of both the occupied and the unoccupied Soviet population shows that the majority understood its own interest in opposition to both Hitler's and Stalin's regime The findings of Mark Edele in this study support such an interpretation
