Vegetarianism, Meat and Modernity in India Johan Fischer, 2023-04-07 Never before in human history have vegetarianism and a plant-based economy been so closely associated with sustainability and the promise of tackling climate change. Nowhere is this phenomenon more visible than in India, which is home to the largest number of vegetarians globally and where vegetarianism is intrinsic to Hinduism. India is often considered a global model for vegetarianism. However, in this book, which is the outcome of eight months of fieldwork conducted among vegetarian and non-vegetarian producers, traders, regulators, and consumers, I show that the reality in India is quite different, with large sections of communities being meat eaters. In 2011, vegetarian, veg, green, and non-vegetarian, non-

veg brown labels on all packaged foods drinks were introduced in India Paradoxically this grand scheme was implemented at a time when meat and non vegetarian food production trade and consumption were booming The overarching argument of the book is that a systematic study of the complex and changing relationship between vegetarian and non vegetarian understandings and practices illuminates broader transformations and challenges that relate to markets the state religion politics and identities in India and beyond The book s empirical focus is on the changing relationship between vegetarian non vegetarian as understood practised and contested in middle class India while remaining attentive to the vegetarian non vegetarian modernities that are at the forefront of global sustainability debates Through the application of this approach the book provides a novel theory of human values and markets in a global middle class perspective *Non-Vegetarian Cook Book* Tahlina Kaul, **Rice Biryani And Pulao** Sanjeev Kapoor,2011-12-31 In this new addition to Sanjeev Kapoors
