Coast Guard,1950 **The widening gap** Shaw, Mary,Dorling, Daniel,1999-11-20 Relentlessly the wide health gap between different groups of people living in Britain continues to get even wider This book presents new evidence which was not available to the government s Independent Inquiry into Inequalities in Health on the size of the gap and the extent to which the gap is widening In particular new geographical data are presented and displayed in striking graphical form It challenges whether the government is concerned enough about reducing inequalities and highlights the living conditions of the million people living in the least healthy areas in Britain It presents explanations for the widening health gap and addresses the implications of this major social problem In the light of this evidence the authors put forward social policies which will reduce the health gap in the future The widening gap synthesises all the information available to date and should be read alongside the report of the evidence presented to the Independent Inquiry into Inequalities in Health Inequalities in health The Policy Press 1999 and by all those concerned with reducing health inequalities Studies in poverty inequality and social exclusion series Series Editor David Gordon Director Townsend Centre for International Poverty Research Poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century This exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available For other titles in this series please follow the series link from the main catalogue page *Heroes or Villains?* Jon Davis,John Rentoul,2019-03-14 Tony Blair was the political colossus in Britain for thirteen

years winning three elections in a row for New Labour two of them by huge majorities However since leaving office he has been disowned by many in his own party with the term Blairite becoming an insult The election of Jeremy Corbyn as Labour Party leader in 2015 seemed to be if not an equal at least an opposite reaction to Blair's long dominance of the centre and left of British politics Drawing on new contributions from most of the main players in the Blair government including Tony Blair himself Jon Davis and John Rentoul reconsider the history and common view of New Labour against its record of delivering moderate social democracy They show how New Labour was not one party but two and how it essentially governed as a coalition much like the government that followed it This book tells the inside story of how Tony Blair worked out late in the day his ideas for improving the NHS and school reform how he groped towards and was eventually defined by a foreign policy of liberal interventionism how he managed a difficult relationship with his Chancellor for ten years and how Gordon Brown finally took over just as the boom went bust and the New Labour era came to an end Rentoul and Davis reveal how the governing tribes dealt with each other in the New Labour years not simply the Blairites and the Brownites but the temporary ministers and the permanent under reported civil servants who worked alongside them Many of the arguments that raged within and around the Blair government of 1997-2007 remain very much alive reform of public services the right course for the divided Labour Party and the Iraq war The Blair Government Reconsidered aims at a balanced account of how decisions were made to allow the reader to make up their own mind about controversies that still dominate politics today

The Road to War in Iraq: Comparative Foreign Policy Analysis Chris Featherstone, 2025-04-09 This book combines three Foreign Policy Analysis (FPA) models to explain both how and why the US and UK decided to invade Iraq in 2003 These three FPA models each examine a different but closely related aspect of the individual level of decision making Firstly Groupthink examines how pathologies of small group decision making affected the processes in the US and UK decision to invade Iraq Secondly the Leadership Style framework examines how the individual leader's style of exercising their leadership affected the navigation of the decision making process Thirdly analogical reasoning examines how decision makers frame their actions both in their own decision making and in how they present their decision to the wider public By achieving these objectives The Road to War contributes to the field of FPA and to our understanding of how the decision to invade Iraq was taken The comparative use of these FPA models within a single framework means that this book responds to the calls for multifactorial research within FPA proposing and testing a framework that provides more complex answers through adopting a multifactorial framework These more nuanced complex answers then reveal more about the role of the individuals involved in the decision to invade Iraq and how their cognition affected the process that led to the decision to invade

Reports of cases argued and determined in the Supreme Court of the State of Montana ,2003 The Winner Effect Ian H. Robertson,2012-10-16 What makes a winner Why do some people succeed both in life and in business and others fail Why do a few individuals end up supremely powerful while many remain powerless The winner effect is a term used in biology to describe how an animal that has won a few fights against weak opponents is much more likely to win later bouts against stronger contenders As Ian Robertson reveals it applies to humans too Success changes the chemistry of the brain making you more focused smarter more confident and more aggressive The effect is as strong as any drug And the more you win the more you will go on to win But the downside is that winning can become physically addictive By understanding what the mental and physical changes are that take place in the brain of a winner how they happen and why they affect some people more than others Robertson answers the question of why some people attain and then handle success better than others He explains what makes a winner or a loser and how we can use the answers to these questions to understand better the behavior of our business colleagues family friends and ourselves

A Summary of the Law of Payment Oliver Lorenzo Barbour,1888 Holocaust Remembrance between the National and the Transnational Larissa Allwork,2015-07-30 Holocaust Remembrance Between the National and the Transnational provides a key study of the remembrance of the Jewish Catastrophe and the Nazi era past in the world arena It uses a range of primary documentation from the restitution conferences speeches and presentations made at the Stockholm International Forum of 2000 SIF 2000 a global event and an attempt to mark a defining moment in the inter cultural

construction of the political and institutional memory of the Holocaust in the USA Europe and Israel Containing oral history interviews with delegates to the conference and contemporary press reports this book explores the inter relationships between global and national Holocaust remembrances The causes consequences and cosmopolitan intellectual context for understanding the SIF 2000 are discussed in great detail Larissa Allwork examines this seminal moment in efforts to globally promote the important if ever controversial topics of Holocaust remembrance worldwide Genocide prevention and the commemoration of the Nazi past Providing a balanced assessment of the Stockholm Project this book is an important study for those interested in the remembrance of the Holocaust and the Third Reich as well as the recent global direction in memory studies The Political Marketing Revolution Jennifer Lees-Marshment, 2004-10 This book shows how British politics is being transformed from a leadership run system to one dictated by public needs and demands No longer confined to party politics organizations including the monarchy the BBC universities local councils charities and the Scottish Parliament are adopting the tools of market intelligence to understand their market needs and demands The political marketing revolution raises many questions such as whether the student or patient really does know best and can decide his own education and health care The book calls for a debate about the movement of the British political system towards a market orientation and a re negotiation of the relationship between leaders and the market While recognizing the need for political leaders to listen this debate places some responsibilities on the political consumer looking to create a new relationship that might work more effectively for both sides Labour Takes Power Denis MacShane, 2023-12-12 With the strong possibility of Labour forming our next government it is fascinating to consider the last time the party stood on the verge of power back in 1997 At that time future Europe Minister Denis MacShane had a ringside seat that he would occupy for the next decade or so living through Cool Britannia the Good Friday Agreement Peter Mandelson s multiple resignations Princess Diana s death and Tony Blair s seeming invincibility New Labour may be remembered as an unstoppable force but MacShane s diaries reveal that while outwardly all seemed to be going well the personal rivalries slights and petty jealousies between the party s big beasts meant that it was never far from disaster MacShane was a regular in Downing Street from the moment of Labour s election victory and his candid intimate diaries show figures such as Tony Blair Gordon Brown Robin Cook Peter Mandelson Clare Short and Alastair Campbell in a light in which they ve never been seen before detailing the personalities as much as the politics of Labour s most successful stint in government
