

Roland VersaWorks

Adding VersaWorks Printer Drivers on Windows 7

Adding a VersaWorks Printer Driver on Computers Running Windows 7

By default, VersaWorks installs the Roland/VW PostScript driver for the Queue-A. If you want to use the Queue-B when printing from applications such as Illustrator, you have to manually install a printer driver for the Queue-B. Since VersaWorks allows configuring automated workflows in Queue Settings, you will be able to choose from two different workflows even when printing the artwork directly from applications or from networked client computers by selecting the proper printer driver.

Before installing the driver, please install Roland VersaWorks and setup the printer in **Printer Settings** window.

Follow the steps below to setup a VersaWorks printer driver:

1. Navigate to **Start > Devices and Printers**, select any printer and click on **Print server properties**.

2. Select **Ports** tab and click on **Add Port**.
