[Name Here]

[Department]

[Street Address] [City, ST, ZIP Code]

Dear [Name Here]:

Our company 'Company X' has been working together with 'Company Y' for ' a number of years' now and we have established a strong business relationship between both companies, with expenditure reaching \$2 million per year on your products/services.

The price of the product has risen each year such as the recorded rise from \$7 per unit to \$10 in the year 2014 and then another price increase in 2017 to \$15 per unit. The reason for the price increase, given by your team, has been due to the increase in the costs of productions and materials.

However, the price of the product has reached \$17 in just one year and we believe this might be the result of the increase in the 'Company Y's' profits. This concern was confirmed by the purchasing manager of your company at our last meeting.

We at 'Company X' believe in maintaining a trustful business relationship for the long term, and in treating our counterparts with the utmost respect. At this point in our long-term business dealing, I don't feel that 'Company Y' has been dealing with the business transactions between our companies with respect, which has become equivalent to \$12 million during the last 6 years, making 'Company X' our preferred supplier of the 'Product Name' in that time. We expect to receive a statement from you by 'Deadline' listing the reasons for the last price increment and why you believe this has been a fair deal.

Sincerely,

[Your Name]

Customising Stakeholder Management Strategies Margit Huber,Martina Pallas,2006-12-26 Stakeholder

Management From Management Philosophy to a Tool for Everyday Working Life Use of Stakeholder Management Today In times of growing globalisation and increasingly tough competition the use of stakeholder management tools is becoming much more widespread Nowadays the concept of stakeholder management is no longer limited to the specific focusing of all corporate activity on interest groups such as customers employees shareholders or suppliers but has become an integral part of a company's daily action Measuring the quality of relationships between companies institutions and the relevant interest groups developing actions aimed at improving these relationships managing and the continuous monitoring of the effects in line with the TRI M approach is gaining momentum in all areas and at all levels of companies and institutions Today human resources departments usually measure the commitment of employees in all organisational units on an annual basis and senior managers develop strategies with their employees to the level of commitment the success of which will ultimately be reviewed through subsequent measuring This greater focus on employee commitment has only recently been given priority For a long time companies have failed to appreciate that the motivation and engagement of employees is the most important basis for excellent customer experiences and consequently profitability Only engaged and motivated employees will use all their skills and energies for the benefit of the company The Forest Service Timber Appraisal System Alfred A.
