Parkin's Microeconomics is a worldwide leader because it provides a serious analytical approach to the discipline using the latest policy and data. Parkin trains students to think like economists by offering a clear introduction to theory and applying the concepts to today's events, news, and research. From our global food shortage to global warming, economic issues permeate our everyday lives. Parkin brings critical issues to the forefront. Each chapter begins with one of today's key issues, and additional issues appear throughout the chapter to show the real-world applications of the theory being discussed. When the chapter concludes, students read between the lines to think critically about a news article relating to the issue, demonstrating how thinking like an economist helps make informed decisions. 0132950995 9780132950992 Microeconomics Plus NEW MyEconLab with Pearson eText Access Card Package. Economics and Language Roger E. Backhouse, 2020-09-16. First published in 1993. The importance of language in economics has been neglected and dominated by techniques from other disciplines. This looks at the wider methodological implications of language within economics in a practical and theoretical way. **Essential Foundations of Economics**

Robin Bade, Michael Parkin, 2004. *Essential Foundations of Economics* was developed on the premise that economics is a core competency for the responsible citizen and a foundation tool for every type of career. The Bade Parkin package is designed to encourage learning by doing. Each chapter concentrates on a manageable number of core concepts that are called out in the beginning of the chapter. Checklist: Students know what they're expected to learn and are given the chance to apply those lessons to real-world problems. Practice is the cornerstone of the innovative Bade Parkin approach. A full-page Checkpoint containing a Practice Problem with solution and a parallel Exercise immediately follows each main idea. Checkpoints serve as stopping points and encourage students to practice using a concept before moving on. Different learning styles need different learning tools, and Bade Parkin's extensive and tightly integrated web environment puts students in the driver's seat and allows them to use technology in the way that suits them best. *The Economist*, 1977.
