Nouveaux Enjeux Internationaux:

International Law and the Quest for Its Implementation Laurence Boisson De Chazournes, Marcelo Gustavo Kohen, 2010 This Liber Amicorum in honour of Professor Vera Gowlland Debbas covers most of the topical problems of contemporary international law in particular those related to the United Nations human rights and humanitarian law law making compliance and peaceful settlement of disputes , **The European Union and International Development** Maurizio Carbone, 2007-12-12 Using development policy this book provides a systematic analysis of the interaction between the European Commission and Member States by exploring the conditions in which the European Commission influences outcomes in EU decision making **International Law and the Quest for its Implementation. Le droit international et la quête de sa mise en oeuvre** Marcelo Kohen, Laurence Boisson de Chazournes, 2010-03-22 This Liber Amicorum appears on the occasion of Professor Vera Gowlland Debbas retirement from the Graduate Institute It includes contributions by her colleagues and friends from distinguished universities and international institutions It covers different fields in which she has excelled This collective work is divided into three main sections The first section examines matters concerning the law of the United Nations The second section is devoted to human rights and international humanitarian law The third section addresses issues related to law making compliance with international law and the peaceful settlement of disputes The result is a collection of stimulating analysis of most of the topical problems of international law The contributions are in both English and French Essays on Strategy Analysis for Seaports Elvira Haezendonck, 2001 The increasingly competitive market environment in which port clusters operate today imposes new requirements on port strategy analysis Many port authorities and port operators now realize that a static approach to cost leadership a sole focus on inherited factor advantages and a simplistic reliance on new infrastructure to attract or retain clients are no longer sufficient to guarantee a port's competitive success They need to offer greater value added to port users as well as to society Hence this new market environment forces ports to reconsider their present strategic position and to reflect on the strategic options for the future The book builds upon an in depth survey of economic actors in the Antwerp seaport cluster with a specific focus on the container and conventional cargo clusters It attempts to answer the question why these particular port clusters are more competitive than similar clusters in other ports In order to answer this question the study develops and extends a number of formal tools of strategy analysis that should be useful to both port authorities and port operators *The Law's Ultimate Frontier: Towards an Ecological Jurisprudence* Horatia Muir Watt, 2023-05-18 This important book offers an ambitious and interdisciplinary vision of how private international law or the conflict of laws might serve as a heuristic for re working our general understandings of legality in directions that respond to ever deepening global ecological crises Unusual in legal scholarship the author borrows in bricolage mode from the work of Bruno Latour alongside indigenous cosmologies extinction theories and Levinassian phenomenology to demonstrate why this field's specific frontier location at the outpost of

the law where it is viewed from the outside as obscure and from the inside as a self contained normative world generates its potential power to transform law generally and globally Combining pragmatic and pluralist theory with an excavation of shadow ecological dimensions of law the author a recognised authority within the field as conventionally understood offers a truly global view Put simply it is a generational magnum opus All international and transnational lawyers be they in the private or public field should read this book

The Private-Public Law Divide in International Dispute Resolution

Burkhard Hess, 2019-03-25 This course addresses dispute resolution in international cases from the classical perspective of the private public divide The main focus relates to overlapping remedies available under private international and public international law Nowadays a multitude of courts and arbitral tribunals at different levels domestic international and transnational is accessible to litigants in cross border settings There are three different areas where the private public divide is applicable The first pertains to lawsuits in civil courts involving foreign states state enterprises and international organizations The second area relates to the delineation between domestic and international remedies The third area concerns the privatization of dispute settlement especially in the context of private ordering This study argues that the private public divide still exists and cannot be given up However one must be aware that private and public international law have complementary functions in order to address adequately the multitude of disputes at both the cross border and the international level In this context this divide can be used as an appropriate tool to explain the complementarity of private and public international law in the multilevel legal structure of a globalized world

The International status of education about the Holocaust Carrier, Peter, Fuchs, Eckhardt, Messinger, Torben, Georg Eckert Institute for International Textbook Research (Germany), 2015-01-14 How do schools worldwide treat the Holocaust as a subject In which countries does the Holocaust form part of classroom teaching Are representations of the Holocaust always accurate balanced and unprejudiced in curricula and textbooks This study carried out by UNESCO and the Georg Eckert Institute for International Textbook Research compares for the first time representations of the Holocaust in school textbooks and national curricula Drawing on data which includes countries in which there exists no or little information about representations of the Holocaust the study shows where the Holocaust is established in official guidelines and contains a close textbook study focusing on the comprehensiveness and accuracy of representations and historical narratives The book highlights evolving practices worldwide and thus provides education stakeholders with comprehensive documentation about current trends in curricula directives and textbook representations of the Holocaust It further formulates recommendations that will help policy makers provide the educational means by which pupils may develop Holocaust literacy
