Broken Altars Thomas Albert Howard, 2025-03-25

A sweeping history of the violence perpetrated by governments committed to extreme forms of secularism in the twentieth century. A popular truism derived from the Enlightenment holds that violence is somehow inherent to religion, to which political secularism offers a liberating solution. But this assumption ignores a glaring modern reality: that putatively progressive regimes committed to secularism have possessed just as much, and often a vastly greater capacity for violence, as those tied to a religious identity. In *Broken Altars*, Thomas Albert Howard presents a powerful account of the misery, deaths, and destruction visited on religious communities by secularist regimes in the twentieth century. Presenting three principal forms of modern secularism that have arisen since the Enlightenment—passive secularism, combative secularism, and eliminationist secularism—Howard argues that the latter two have been especially violence-prone. Westerners do not fully grasp this, however, because they often mistake the first form, passive secularism, for secularism as a whole. But a disconcertingly more complicated picture emerges with the adoption of a broader global vision. Admitting different species of secularism, greater historical perspective, and case studies drawn from the former Soviet Union, Turkey, Mexico, Spain, Czechoslovakia, Albania, Mongolia, and China, among other countries, Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past.

History and Nationalist Legitimacy in Contemporary China Robert

Weatherley, Qiang Zhang, 2017-08-30 This book examines how the Chinese Communist Party (CCP) has attempted to bolster its nationalist legitimacy through the utilisation of Chinese history. The authors identify two different modes of nationalism: aggressive and consensual, both of which are linked to the historical memory of the late Qing Dynasty and Republican era. Aggressive nationalism dwells on China's traumatic century of humiliation and is intended to incite popular resentment.

towards former imperialist powers particularly Japan and the US whenever they are deemed to still be acting in a provocative manner in their dealings with China The aim is to remind the Chinese people that the CCP liberated China from imperialism after 1949 and has since restored national pride Consensual nationalism is more conciliatory emphasising common historical ties with the Guomindang KMT during the Second Sino Japanese War and the Republican era Here the CCP is trying to promote itself as the party of national harmony and unity with the long term objective being peaceful reunification with Taiwan However the public response in China has not always been supportive of the CCP's claims to be the sole defender of Chinese national interests Some critics have suggested that China would have been better off if the KMT had won the civil war instead of the CCP Others have insisted that the party is hopelessly weak on issues of national importance and that China is no stronger now than it was during the final throes of the much hated Qing Dynasty This book will be of interest to research students and scholars of Chinese politics history and international relations *Raising Victims* Leonydus

Johnson, 2023-02-07 Exposes how public schools are teaching Critical Race Theory disguised as innocuous Diversity Equity and Inclusion initiatives explains why this is training a generation of children to view themselves as victims and shows parents what they can do to stop it Public schools are indoctrinating a generation of children to see themselves as either victims of systemic racial oppression or members of a wicked oppressor class Leonydus Johnson a black writer and podcaster exposes the poisonous ideology embedded in Diversity Equity and Inclusion programs We must teach our children the truth that their identity comes not from their race but from Christ **Artificial Intelligence and Machine Learning** Hai Jin, Yi
