The Oxford Edition of the Sermons of John Donne, Volume VII Peter McCullough, Erica Longfellow, 2024-12-11
Volume VII of The Oxford Edition of the Sermons of John Donne gathers sermons preached by Donne at different venues for the related liturgical occasions of marriages christenings and the churching of women after childbirth The volume contains ten sermons seven of them undated and in the case of the christening sermons also for parties unknown one of the two churching sermons survives only in an authorially revised state as two separate but obviously coeval sermons Longfellow and McCullough establish that these sermons were preached across almost the whole of Donne s preaching career from among his earliest ca 1615 16 to 1627 four years before his death In each case an authoritative text has been established by freshly collating multiple copies of the seventeenth century print editions as well as multiple manuscript copies which predate the print witnesses For the first time these sermons appear with full critical apparatus The Introduction provides the first dedicated account of the place of sermons in the social liturgical and theological contexts of these occasions in post Reformation England A headnote to each sermon describes its textual state and supplies local historical social and intellectual context and suggestions for further reading Extensive commentaries document Donne s use of sources both acknowledged and unacknowledged translate passages in foreign languages and gloss important and unfamiliar words Although largely neglected by previous scholarship these sermons emerge here as unique the only known sermons for churchings challenging for views on women and marriage more conservative than many of Donne s contemporaries and as evidence of Donne s Calvinist sacramental theology and his anti Catholicism They are also fine examples of Donne s skill in crafting emotionally compelling sermons suited to the unique demands of both occasion and auditory **An English Version of the Eclogues of Virgil** Samuel Palmer, 2025-09-26 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **Doubtful Readers** Erin A. McCarthy, 2020-02-07 When poetry was printed poets and their publishers could no longer take for granted that readers would have the necessary knowledge and skill to read it well By making poems available to anyone who either had the means to a buy a book or knew someone who did print publication radically expanded the early modern reading public These new readers publishers feared might not buy or like the books Worse their misreadings could put the authors the publishers or the readers themselves at risk **Doubtful Readers** Print Poetry and the Reading Public in Early Modern England focuses on early modern publishers efforts to identify and accommodate new readers of verse that had previously been restricted to particular social networks in manuscript Focusing on the period between the maturing of the market for printed English literature in the 1590s and the emergence of the professional poet following the Restoration this study shows that poetry was shaped by and itself shaped strong print publication traditions By reading printed editions of poems by William Shakespeare

Aemilia Lanyer John Donne and others this book shows how publishers negotiated genre gender social access reputation literary knowledge and the value of English literature itself It uses literary historical bibliographical and quantitative evidence to show how publishers strategies changed over time Ultimately Doubtful Readers argues that although or perhaps because publishers interpretive and editorial efforts are often elided in studies of early modern poetry their interventions have had an enduring impact on our canons texts and literary histories Students' Edition of a Standard Dictionary of the English Language ...
