low maintenance systems are very different with automated feeding and water stations a detritus collection system that does the maintenance for you along with a number of other innovations The result is smarter low maintenance consistent and productive breeding methods for both private and commercial applications The reality is that crickets can now be bred with less time than standing in line at your pet store Now there is a true alternative which makes cricket breeding available to everyone

WHY OUR METHODS ARE VERY DIFFERENT After more than a decade of commercial production and experimentation we have pioneered revolutionary techniques that have slashed maintenance eliminated offensive odor and doubled production How would you like automated systems that

- Needs no active management
- Collects waste for you
- Requires only 5 minutes maintenance every 7 10 days less time than standing in line at the pet store
- Food water dispensers that attends to your insects for 14 days or more

Systems so productive that the average family will be able to feed 4 12 bearded dragons depending of insect feeding rate just from their scrap vegetables That s over 1400 each year completely free good income for the family or teach your kids to build their own business Best of all they are easy to build and materials are made from recycled materials or from your hardware Breeding your own feeder insects has never been easier with the world s most comprehensive and well researched feeder insects guides with hundreds of photos complementary Skype video training along with Email support Our methods are also available on video at a click of a button full details on our website www.wildlifehub.com

HOW DO OUR SYSTEMS WORK In a nut shell we have created two separate zones within a single container conventional techniques require up to 6 separate containers one high humidity area ideal for breeding and a lower humidity area for housing and food water We have also developed a unique detritus collection system which collects the waste and prevents contamination of breeding substrate and food areas This makes cleaning a breeze eliminates odor and disease increases egg viability and increases cricket production We have water food dispersers which do the feeds for you even when your on holidays Unlike other methods which need to be actively managed daily spraying and moving pinheads to new containers our systems run themselves And our cockroach breeding systems are equally unique at reducing maintenance and smells also available on Amazon Now you can breed both species with ease

THE MOST COMPREHENSIVE GUIDES This manual sets the benchmark for cricket production and contains more than 164 pages 240 color photos that cover s every aspect of private and commercial production in detail That s more than twice the size of any other book on the market We have overhauled every aspect of cricket production including container design breeding food and water requirements making food and water dispensers heating storage maintenance pest management cleaning grading selling lots and lots more

COMMERCIAL PRODUCTION EXPERIENCE Turn an Expense Into Income We have bred crickets and cockroaches commercially for 10 years to wildlife parks zoos pet stores wildlife rescue clubs and
